Illusions in Motion Erkki Huhtamo, 2023-08-22 Tracing the cultural material and discursive history of an early manifestation of media culture in the making Beginning in the late eighteenth century huge circular panoramas presented their audiences with resplendent representations that ranged from historic battles to exotic locations Such panoramas were immersive but static There were other panoramas that moved hundreds and probably thousands of them Their history has been largely forgotten In Illusions in Motion Erkki Huhtamo excavates this neglected early manifestation of media culture in the making The moving panorama was a long painting that unscrolled behind a window by means of a mechanical cranking system accompanied by a lecture music and sometimes sound and light effects Showmen exhibited such panoramas in venues that ranged from opera houses to church halls creating a market for mediated realities in both city and country In the first history of this phenomenon Huhtamo analyzes the moving panorama in all its complexity investigating its

relationship to other media and its role in the culture of its time In his telling the panorama becomes a window for observing media in operation Huhtamo explores such topics as cultural forms that anticipated the moving panorama theatrical panoramas the diorama the panoramania of the 1850s and the career of Albert Smith the most successful showman of that era competition with magic lantern shows the final flowering of the panorama in the late nineteenth century and the panorama s afterlife as a topos traced through its evocation in literature journalism science philosophy and propaganda

Fallows,2006-11-22 Pro JSF and Ajax shows you how to leverage the full potential of JavaServer Faces JSF and Ajax This is not an entry level tutorial but a book about building Ajax enabled JSF components for sophisticated enterprise level rich Internet applications Written by JSF experts and verified by established community figures including Adam Winer member of the JSF Expert Group Java Champion Kito D Mann JSFCentral com and JSF in Action and Matthias We endorf MyFaces this JSF 5 compatible book provides reliable and groundbreaking JSF components to help you exploit the power of JSF in your Java web applications This book provides a blueprint for building custom JSF user interface components and shows how to leverage the best browser technologies such as Ajax Mozilla XUL and Microsoft HTC to deliver rich Internet applications This book covers standard best practices for behavioral and renderer specific component classes renderers events and event

listeners and JSP tag handlers for each It also covers advanced techniques such as dynamic content type negotiation JAR based resource delivery and dynamic render kit selection Foreword Does the world really and truly need another JavaServer Faces book I was fairly well convinced the answer could only be a resounding no After all there s a good half dozen books out in stores today by a whole host of web luminaries and I ve even personally helped as a technical reviewer on half of those So what more could really be said on the subject But when I thought about this a bit more it became clear that all of these books only go so far They ll show you how to use what JSF gives you out of the box throw you a bone for writing your own components and renderers maybe even a bit more But none that I ve seen get to the heart of why JSF is really and truly cool and important technology they make JSF look like YAMVCF Yet Another Model View Controller Framework for HTML more powerful here and there easier to use in many places a bit harder to use in others but really nothing major And certainly nothing that takes us beyond the dull basics of building ordinary looking web applications This book goes a lot further It ll cover the basics of course and show you how to build components but then it keeps going on to AJAX on to HTC on to XUL and how you can wrap this alphabet soup up underneath the heart of JSF its component model and how you can leverage it to finally develop web applications that don t need radical re architecting every time the winds of client technologies blow in a different direction Along the way you ll learn a wide array of open source toolkits that make web magic practical even when you re not a Javascript guru So heck I m convinced The world does need another JSF book Adam Winer Architect ADF Faces JSF Expert Group Member and Java Champion From the Foreword Pioneer Churches along the Gold Rush Trail Liz

Bryan,2022-06-14 A fascinating tour through BC s historical gold rush trails focusing on the nineteenth century churches that were pivotal to the establishment of early settler communities Much has been written about the Cariboo gold rush from the trails and wagon roads to the rowdy mining camps from tales of great luck to those of disappointment and despair This book paints a different picture of those pioneer days It is a guide to the nineteenth century churches that were built during the gold rush or in the settlement days that followed Most of these historic structures were handmade of local wood though they differed greatly in size and style Some are now abandoned untenanted but still worthy of inspection All were built to fill the spiritual need of the European migrants who flooded to the area to nurture a sense of community that survived even after the gold was gone Filled with beautiful colour photography and detailed maps Pioneer Churches along the Gold Rush Trail highlights the history geography architecture craftsmanship and social context of dozens of gold rush era churches preserving them in their varying states of decay for posterity While acknowledging the destructive forces of colonialism including Christianity on Indigenous Peoples this book also examines the historical role of churches in community building and invites the reader to consider this dichotomy with an open and curious mind *Microsoft SharePoint Portal Server* Kevin Laahs, Emer McKenna, Don Vickers, 2002-01-08 Use Microsoft SharePoint Portal Server 2001 as a foundation for building knowledge sharing applications This book details how IT professionals can plan design and implement web based

Innovation in Real Places Dan Breznitz,2021-03-09 Winner of Balsillie Prize for Public Policy Winner of Donner Prize A challenge to prevailing ideas about innovation and a guide to identifying the best growth strategy

for your community Across the world cities and regions have wasted trillions of dollars on blindly copying the Silicon Valley model of growth creation Since the early years of the information age we've been told that economic growth derives from harnessing technological innovation To do this places must create good education systems partner with local research universities and attract innovative hi tech firms We have lived with this system for decades and the result is clear a small number of regions and cities at the top of the high tech industry but many more fighting a losing battle to retain economic dynamism But are there other models that don't rely on a flourishing high tech industry In *Innovation in Real Places* Dan Breznitz argues that there are The purveyors of the dominant ideas on innovation have a feeble understanding of the big picture on global production and innovation They conflate innovation with invention and suffer from techno fetishism In their devotion to start ups they refuse to admit that the real obstacle to growth for most cities is the overwhelming power of the real hubs which siphon up vast amounts of talent and money Communities waste time money and energy pursuing this road to nowhere Breznitz proposes that communities instead focus on where they fit in the four stages in the global production process Some are at the highest end and that is where the Cleavelands Sheffields and Baltimores are being pushed toward But that is bad advice Success lies in understanding the changed structure of the global system of production and then using those insights to enable communities to recognize their own advantages which in turn allows to them to foster surprising forms of specialized innovation As he stresses all localities have certain advantages relative to at least one stage of the global production process and the trick is in recognizing it Leaders might think the answer lies in high tech or high end manufacturing but more often than not they're wrong *Innovation in Real Places* is an essential corrective to a mythology of innovation and growth that too many places have bought into in recent years Best of all it has the potential to prod local leaders into pursuing realistic and regionally appropriate models for growth and innovation
