Chemistry in Primetime and Online National Research Council, Division on Earth and Life Studies, Board on Chemical Sciences and Technology, Chemical Sciences Roundtable, 2011-08-01 It is critical that we increase public knowledge and understanding of science and technology issues through formal and informal learning for the United States to maintain its competitive edge in today's global economy Since most Americans learn about science outside of school we must take advantage of opportunities to present chemistry content on television the Internet in museums and in other informal educational settings In May 2010 the National Academies Chemical Sciences Roundtable held a workshop to examine how the public obtains scientific information informally and to discuss methods that chemists can use to improve and expand efforts to reach a general nontechnical audience Workshop participants included chemical practitioners e.g. graduate students postdocs professors administrators experts on informal learning public and private funding organizations science writers bloggers publishers and university communications officers and television and Internet content producers *Chemistry in Primetime and Online* is a factual summary of what occurred in that workshop *Chemistry in Primetime and Online* examines science content especially chemistry in various informal educational settings It explores means of measuring recognition and retention of the information presented in various media formats and settings Although the report does not

provide any conclusions or recommendations about needs and future directions it does discuss the need for chemists to connect more with professional writers artists or videographers who know how to communicate with and interest general audiences It also emphasizes the importance of formal education in setting the stage for informal interactions with chemistry and chemists *Laboratory Science Guide for Secondary Schools* Kansas State Teachers College of Emporia,1954
