Preparation of Letters for the IEEE Sensors Journal (February 2006)

First A. Author, Second B. Author, Jr., *Fellow IEEE*, and Third C. Author, *Member IEEE*

***Abstract*—These instructions, modeled after the standard format for all IEEE journal papers, give you guidelines for preparing Letters for IEEE SENSORS JOURNAL. Use this document as a template to prepare your manuscript if you are using Microsoft *Word* 6.0. Otherwise, use this document as an instruction set. Define all symbols used in the abstract. Do not cite references in the abstract. Do not delete the blank line immediately above the abstract; it sets the footnote at the bottom of this column.**

***Index Terms*—About four key words or phrases in alphabetical order, separated by commas. For a list of suggested keywords, send a blank e-mail to keywords@ieee.org or visit the IEEE web site at http://www.ieee.org/organizations/pubs/ani_prod/keyword98.txt**

I. Introduction

THIS document is a template for Microsoft *Word* versions 6.0 or later. If you would prefer to use LATEX, download IEEE's LATEX style and sample files from http://www.ieee.org/organizations/pubs/transactions/stylesheets.htm.

When you open this model DOC file, select "Page Layout" from the "View" menu in the menu bar (View | Page Layout), which allows you to see the layout of the document. Then type over the header and section of the document, or cut and paste from another document. The pull-down style menu is at the left of the Formatting Toolbar at the top of your *Word* window (for example, the style at this point in the document is "Text"). Highlight a section that you want to designate with a certain style, then select the appropriate name on the style menu. The style will adjust your fonts and line spacing. **Do not change the font sizes or line spacing to squeeze more text into a limited number of pages.** Use italics for emphasis; do not underline.

To insert images in *Word*, position the cursor at the insertion point and either use Insert | Picture | From File or copy the image to the Windows clipboard and then Edit | Paste Special | Picture (with "Float over text" unchecked).

II. Procedure for Manuscript Submission

A. Manuscript Preparation

Use the guidelines described below to prepare your Letters manuscript using the two-column format as illustrated in this DOC file. **Letters are limited to two pages and are accepted or rejected as submitted, so prepare your manuscripts carefully.** No exceptions to the two-page limit will be made.

B. Manuscript Submission

All manuscripts are submitted using Manuscript Central. The website is http://sensors-ieee.manuscriptcentral.com/.

C. Tables and Figures

In your submitted Letters manuscripts, make the tables and figures appear in the format as shown in Fig. 1 and Table I

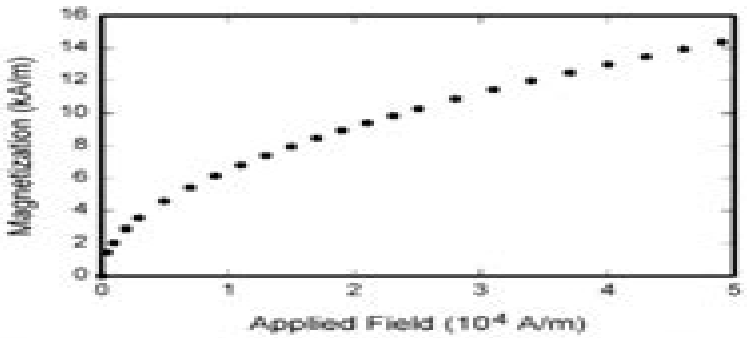

Fig. 1. Magnetization as a function of applied field. Note that "Fig." is abbreviated. There is a period after the figure number, followed by two spaces. It is good practice to explain the significance of the figure in the caption.

Manuscript received October 9, 2003. (Write the date on which you submitted your paper for review.) This work was supported in part by the U.S. Department of Commerce under Grant BS123456 (sponsor and financial support acknowledgment goes here). Paper titles should be written in uppercase and lowercase letters, not all uppercase. Avoid writing long formulas with subscripts in the title; short formulas that identify the elements are fine (e.g., "Ni–Fe–B"). Do not write "(Invited)" in the title. Full names of authors are preferred in the author field, but are not required. Put a space between authors' initials.
