Panama International Monetary Fund. Statistics Dept., 2021-02-03 At the request of the Superintendency of Banks of Panama SBP and with the support of the International Monetary Fund's IMF's Western Hemisphere Department WHD a monetary and financial statistics MFS remote technical assistance TA mission from

the IMF's Statistics Department STA took place during June 22 July 10 2020 The main objective of the mission was to assist the SBP in the compilation of new standard report forms for depository corporations SRF 1SR and SRF 2SR on the basis of internationally accepted standards as set out in the IMF's 2016 Monetary and Financial Statistics Manual and Compilation Guide MFSMCG following the introduction of a new chart of accounts by the SBP and to agree on an improved timeline to report monetary and financial statistics to STA on a monthly basis The work of the mission was facilitated by the excellent collaboration of the staff of the Financial Studies Directorate FSD of the SBP The officials met during the mission are listed in Appendix I **Accountants' Handbook, Financial Accounting and General Topics** D. R. Carmichael, Lynford

Graham, 2012-04-26 This highly regarded reference is relied on by a considerable part of the accounting profession in their day to day work This comprehensive resource is widely recognized and relied on as a single reference source that provides answers to all reasonable questions on accounting and financial reporting asked by accountants auditors bankers lawyers financial analysts and other preparers and users of accounting information The new edition reflects the new FASB Codification and includes expanded coverage of fair value and guidance on developing fair value estimates fraud risk and exposure healthcare and IFRS Redesigning Petroleum Taxation Emre Üsenmez, 2018-10-15 Since its inception some 40 years ago petroleum specific taxation in the UK has been subject to numerous modifications Often these modifications were brought into place not only to sufficiently incentivise the investors but also to capture a fair share for the government However it is evident from the frequency of changes that finding the right balance between these two aims is no easy matter Such a balance and the consequent fiscal stability is necessary for the long term relationship between the parties to endure to their mutual benefit Still it does not take much for one or other party to feel that they are out of balance As a consequence one party feels that the other party is taking an undue proportion of the value generated and that they are losing out Yet achieving that balance and fiscal stability is possible To understand this possibility this book first clarifies what is meant by sufficient incentivisation and fair share before developing a new fiscal system that manages this balance and stability Such clarification yields objective criteria against which to assess not only the existing regime but also the newly proposed regime This approach is further complemented by the critical analysis of the fiscal legislative framework and the evaluation of the legal positions of specific contractual elements and mechanisms found within that framework This latter analysis is important in order to reduce the legal uncertainty such elements may create which can otherwise lead to further reactive amendments and revisions to the fiscal regime in the future
