Customer Relationship

Management Chaturvedi, 2006-03-30. About the Book: Customer Relationship Management (CRM) was born in the 1990s in the West. In the initial phases, the over-enthusiastic businesses invested almost US \$400 billion. But the very same businesses were disheartened very soon, primarily because there were no visible results. And there were no quick results mainly because 80 per cent of the investments were made in technology. CRM meant technology to them; then CRM means technology to them even today. However, no business need bother so long as it is ready to go by the human aspect of CRM and take technology only as a facilitator. This book is an attempt to present this human side of CRM. The authors' belief is that in the long term CRM can be successful only due to its human face. The book is arranged in three parts: Part I: Customer Relationship Management contains the academic inputs titled as Customer is King, Customer Managed Relationships, Mini Marketing Types of CRM, Building Blocks of CRM, CRM Strategies, Customer Relationship Management by Indian Firms, Customer Retention Strategies, HRM in CRM, and Implementing a Technology-based CRM Solution. Part II: Call Centre Management covers the areas concerning the working of a call centre titled as The Call Centre, Call Centre Functionality, Team Building, Customer Relationship Management, Web-based Customer Support, and Contact Centre Glossary. Part III: Cases gives a first-hand idea of the working of CRM in the more peculiar contexts like public sector undertakings through five well-documented cases.
