

## JOURNAL ARTICLE REVIEW ASSIGNMENT INSTRUCTIONS

### OVERVIEW

For this **Journal Article Review Assignment**, you will read one of the articles from the professional, peer-reviewed journal articles provided in the **Learn** section of **Module 1, Week 1**. You will then write an article review based on your chosen article.

### INSTRUCTIONS

Your **Journal Article Review Assignment** must be approximately 4–5 double-spaced pages (not including the title and reference pages) and must be created in a Microsoft Word document. Use the following guidelines to create your **Journal Article Review Assignment**:

1. Provide a **title page** in current APA format. Divide your summary into sections with the following Level One headings: **Summary**, **Interaction**, and **Application** (review the current APA Manual for guidance on levels of headings if needed). *An abstract is not needed for this assignment.* For more information on how the title page should look according to Liberty University Standards, please reference this website: <https://www.liberty.edu/online/wp-content/uploads/APA-7th-Sample-Paper-Graduate.pdf>
2. Develop a **summary** of the main concepts from the article. Do not duplicate the article's abstract. If the article describes a research study, include brief statements about the hypotheses, methods, results, discussion, and implications. If any test measures or statistical methods used are given in the article, do not provide detailed descriptions of these. Short direct quotations from the article are acceptable, but avoid long quotations in a paper this size. This section is the foundation of your **Journal Article Review Assignment** (at least a third of your paper). Make sure that you include the core points from the article, even if it means a longer section.
3. In your own words, **interact** (in approximately 2 pages) with the article. Appropriate comments for this part of the **Journal Article Review Assignment** should include, but are not limited to: your initial response to the article, comments regarding the study's design or methodology (if any), insights you gained from reading the article, your reasons for being interested in this particular article, any other readings that you may plan to do based upon having read the article, and other thoughts you have that might further enhance the discussion of your article. Your subjective comments in this section must be clearly tied to main points from the article, not peripheral ideas. You are highly encouraged to consider any other information from previous articles or textbooks you may have read in previous courses, or in other places you have encountered information relating to the themes in the article you are reviewing. For example, does the *ACA Code of Ethics* have anything to say about the themes being discussed in your journal article? Are there passages of Scripture that directly relate to the article? Are there ideas and concepts from previous courses you have taken in your program here at Liberty or
