 CONSUMER BEHAVIOR 10th Edition offers a practical business approach designed to help students apply consumer behavior principles to their studies in business and marketing to their future business careers and also to their private lives as consumers. This multi-disciplinary field can tempt both students and instructors to stray from the basic business principles they should take away from the course. Blackwell keeps students focused on consumer decision making as it applies specifically to an overall understanding of business theory and practices through the CDP Consumer Decision Process model. CONSUMER BEHAVIOR 10e focuses on why as well as how consumers make specific decisions and behave in certain ways: what motivates them, what captures their attention, and what retains their loyalty, turning customers into fans of an organization.

Consumer Behavior Morris B. Holbrook, 2024-12-02 Consumer Behavior presents an autobiographical view of Morris B. Holbrook's contributions to the study of consumer behavior, describing his life and work over the past 60 years via a collection of subjective personal introspective essays. This new collection extends, enlarges, and elaborates on the insights garnered over Holbrook's career to provide a lively and thought-provoking exploration of the evolution of consumer research. Using Subjective Personal Introspection (SPI), Holbrook shares aspects of his own journey in developing insights into such topics as the consumption experience, consumer value, the jazz metaphor, marketing education, and various controversies that have interested the scholarly community. Early chapters portray Holbrook's evolution in college, graduate school, and faculty membership, while later chapters trace his approaches to understanding the role of consumption as the essence of the human condition. Throughout, SPI is used to illuminate the ways in which academic struggles have led toward deeper understandings of consumers. Readers with an interest in the autobiographical details of how ideas develop and emerge in an area such as consumer research, including doctoral students or faculty members in the field of marketing, will find enlightenment and inspiration in contemplating the misadventures of a fellow traveler.

Shorter than competing books but no less rigorous, it includes unique material on vulnerable consumers and ethics. Balancing a strong academic foundation with a practical approach, Stephens emphasizes that consumer behavior does not simply equate to buyer behavior. She examines the thoughts, feelings, and behaviors that shape consumers' attitudes and motivations in relation to brands, products, and marketing messages. Providing a concise guide to the discipline, the author covers key themes such as vulnerable consumers, new technologies, and collaborative consumption. The book is supported by a rich companion website offering links to videos and podcasts, surveys, quizzes, further readings, and more.
