Journey of a Woman Mrs.

Joyce Houston,2013-10-21 Mrs Joyce was born and raised in Newburgh New York and is still here My life is full of different experiences and I don t hate men They just gave me hell almost every man in my lifetime and because of that I m strong and flexible I ve loved real deep and sometimes not at all I ve even hated but now I m at a point of living and loving me and loving me and mines I listen to my mellow music and write I hold my head up no matter what This is how I survive and glad to be alive By the way look for Joyce Houstons other books Visions Outspoken and Bold and Sticks and Stones **Images from a Long Journey** Kai Woehler,2010-03-31 How This Book Came About This book is in some sense the soul underlying an earlier book that I had written a book about modern science which had the title The Search for the Meaning of Space Time and Matter The book was written for people with interest in modern science It had the subtitle Images from Many Travels The subtitle of that earlier book and the final decision to write it had its origin in a restless wanderlust which in the last twenty years has driven me irresistibly to travel to the most remote places on earth I traveled into the Arctic the waters between North Norway and Svalbard to Tibet over the plateau to the foot of Mount Everest to North India to the remote monasteries in the Ladakh along the Silk Road around the Taklimakan Desert into Inner Asia to Timbuktu at the edge of the Sahara to the Antarctic and to the Skeleton Coast in Namibia These journeys were driven by the urge to somehow grasp the whole world and make it my own It was the Brahma in me who is creating a world in himself in his mind It is Odysseus in me Faustus the restless forever searching until his life dissolves I had to wander the many roads that all led to the same place that vastly complex unfolding essence of Being in all its colors and textures and shapes I had to go and see this wonderful tapestry of life that is of deep inner beauty even in its squalor its suffering and pain and the dirty ugliness that I saw on some of these travels I had to wander to fully accept all that life is into myself to feel at home on the earth That same kind of yearning had driven me in my youth to discover the mysteries of space of time and of matter After WWII at age sixteen I had acquired rudimentary knowledge of Heisenberg s and Einstein s attempts to create that all encompassing unified theory that captures the observed phenomena of space and the world of the elementary building blocks of matter A sort of obsession to learn all that is known about these things 8 Kai Woehler accompanied me on my journey to study physics spending some years in Heisenberg s institute and eventually after circuitous routes teaching physics at a graduate school for military officers at the California coast The above mentioned book then is somewhat of an amalgam of these two kinds of journeys during my life Many dear nonscientist friends took an interest in that book and I recommended to them to just read the first and the last chapters which carry more of my personal reflections about our lives in this cosmos The final impetus to write this separate book which is in your hands was the fact that as an orderly circumspect person I had put my worldly affairs in order sometime ago under the title The Kai X File containing instructions for the executer of my will in the case of my departure This file contains a letter which was to be my farewell letter to my closer friends to be sent instead of some standard obituary notice The file contains many other writings some short others not so short reflections about my life writings which did not

have a good place in that first book mentioned above This then led to this book It is a collection of thoughts essays some poems of my own some other poems that were important to me some of them German poems which I have translated into English as I could some dreams that had great meaning in my life The above mentioned farewell letter is now at the very end of this second book The items in each chapter were collected over a span of time and there are themes to which I returned often So there are some duplications of Kai s sayings in this book but I will leave them as they are and hope you understand I am somewhat arbitrarily terminating the collection now while I am still here and reasonably coherent and I will share this collection with you my friends when there is a good time for this And just a **The Life Journey of a Missionary's Son**

Too Far From Home Chris Jones,2007-03-06 An incredible true life adventure set on the most dangerous frontier of all outer spaceIn the nearly forty years since Neil Armstrong walked on the moon space travel has come to be seen as a routine enterprise at least until the shuttle Columbia disintegrated like the Challenger before it reminding us once again that the dangers are all too real Too Far from Home vividly captures the hazardous realities of space travel Every time an astronaut makes the trip into space he faces the possibility of death from the slightest mechanical error or instance of bad luck a cracked O ring an errant piece of space junk an oxygen leak There are a myriad of frighteningly probable events that would result in an astronaut s death In fact twenty one people who have attempted the journey have been killed Yet for a special breed of individual the call of space is worth the risk Men such as U S astronauts Donald Pettit and Kenneth Bowersox and Russian flight engineer Nikolai Budarin who in November 2002 left on what was to be a routine fourteen week mission maintaining the International Space Station But then on February 23 2003 the Columbia exploded beneath them Despite the numerous news reports examining the tragedy the public remained largely unaware that three men remained orbiting the earth With the launch program suspended indefinitely

these astronauts had suddenly lost their ride home Too Far from Home chronicles the efforts of the beleaguered Mission Controls in Houston and Moscow as they work frantically against the clock to bring their men safely back to Earth ultimately settling on a plan that felt at best like a long shot Latched to the side of the space station was a Russian built Soyuz TMA 1 capsule whose technology dated from the late 1960s in 1971 a malfunction in the Soyuz 11 capsule left three Russian astronauts dead Despite the inherent danger the Soyuz became the only hope to return Bowersox Budarin and Pettit home Chris Jones writes beautifully of the majesty and mystique of space travel while reminding us all how perilous it is to soar beyond the sky
