heavily relied on throughout the maritime world this book is grounded in English law whilst continuing to analyse the key international conventions currently in force Brand new coverage includes The impact of the European Union Withdrawal Agreement Act 2020 which amends the European Union Withdrawal Act 2018 Over one hundred new cases from the English courts the Court of Justice of the European Union and the International Tribunal for the Law of the Sea Changes to the Merchant Shipping Registration of Ships Regulations 1993 including the Merchant Shipping Registration of Ships Amendment EU exit Regulations 2019 Discussion of the Incoterms 2020 which are available for incorporation into sale contracts from 1 January 2020 Updates on litigation and amendments to the Admiralty Civil Procedure Rules This book is a comprehensive reference source for students academics and legal practitioners worldwide especially those new to maritime law or a particular field therein

Making One's Way in the World Martin Bell, 2020-02-28 The book draws on the evidence of landscape archaeology palaeoenvironmental studies ethnohistory and animal tracking to address the neglected topic of how we identify and interpret past patterns of movement in the landscape It challenges the pessimism of previous generations which regarded prehistoric routes such as hollow ways as generally undatable The premise is that archaeologists tend to focus on sites while neglecting the patterns of habitual movement that made them part of living landscapes Evidence of past movement is considered in a multi scalar way from the individual footprint to the long distance path including the traces created in vegetation by animal and human movement It is argued that routes may be perpetuated over long timescales creating landscape structures which influence the activities of subsequent generations In other instances radical changes of axes of communication and landscape structures provide evidence of upheaval and social change Palaeoenvironmental and ethnohistorical evidence from the American North West coast sets the scene with evidence for the effects of burning animal movement faeces deposition and transplantation which can create readable routes along which are favoured resources Evidence from European hunter gatherer sites hints at similar practices of niche construction on a range of spatial scales On a local scale footprints help to establish axes of movement the locations of lost settlements and activity areas Wood trackways likewise provide evidence of favoured patterns of movement and past settlement location Among early farming communities alignments of burial mounds enclosure entrances and other monuments indicate axes of communication From the middle Bronze Age in Europe there is more clearly defined evidence of trackways flanked by ditches and fields Landscape scale survey and excavation enables the dating of trackways using spatial relationships with dated features and many examples indicate long term continuity of routeways Where fields flank routeways a range of methods including scientific approaches provide dates Prehistorians have often assumed that Ridgeways provided the main axes of early movement but there is little evidence for their early origins and rather better evidence for early routes crossing topography and providing connections between different environmental zones The book concludes with a case study of the Weald of South East England which demonstrates that some axes of cross topographic movement used as droveways and generally

considered as early medieval can be shown to be of prehistoric origin One reason that dryland routes have proved difficult to recognise is that insufficient attention has been paid to the parts played by riverine and maritime longer distance communication It is argued that understanding the origins of the paths we use today contributes to appreciation of the distinctive qualities of landscapes Appreciation will help to bring about effective strategies for conservation of mutual benefit to people and wildlife by maintaining and enhancing corridors of connectivity between different landscape zones including fragmented nature reserves and valued places In these ways an understanding of past routeways can contribute to sustainable landscapes communities and quality of life

Merkin and Flannery on the Arbitration Act 1996 Robert Merkin, Louis Flannery QC, 2019-11-21 This book is an essential resource for anybody involved in arbitration It is an updated section by section commentary on the Arbitration Act 1996 split into a separate set of notes for each section and subdivided into the relevant issues within that section It contains elements of international comparative law citing authorities from many other common law and civil law jurisdictions Beyond the development of law since the last edition this sixth edition contains new practical features to aid the reader Each section now has a new contents table with each separate topic set out clearly and in a logical order which acts as reminder for the reader Further each separate topic now has a specific individual reference and the topics are grouped in a more systematic and logical way within each section to improve readability The book is primarily aimed at practitioners of arbitration both in the UK and abroad including solicitors barristers arbitrators and judges who are involved in the practice of arbitration whether domestic or international It is also aimed at UK and international students of international arbitration especially in relation to the sections with comparative legal analysis and comprehensive discussions on the interaction between the Arbitration Act 1996 and institutional arbitration rules Erratum The authors regret that the new version of the LCIA Rules will not now be published or be applicable until early 2020 due to unexpected circumstances It is understood that those Articles referred to in the text as the 2019 Rules will remain unchanged albeit that the Rules when in force should be and will be cited as the 2020 LCIA Rules The authors accept responsibility for and apologise for this error

Security Rights in Intellectual Property Eva-Maria Kieninger, 2020-06-11 This book discusses the main legal and economic challenges to the creation and enforcement of security rights in intellectual property and explores

possible avenues of reform such as more specific rules for security in IP rights and better coordination between intellectual property law and secured transactions law In the context of business financing intellectual property rights are still only reluctantly used as collateral and on a small scale If they are used at all it is mostly done in the form of a floating charge or some other all asset security right The only sector in which security rights in intellectual property play a major role at least in some jurisdictions is the financing of movies On the other hand it is virtually undisputed that security rights in intellectual property could be economically valuable or even crucial for small and medium sized enterprises especially for start ups which are often very innovative and creative but have limited access to corporate financing and must rely on capital markets securitization capital market Therefore they need to secure bank loans yet lack their own traditional collateral such as land

Arbitration Clauses in Maritime Contracts Eleni Magklasi, 2024-06-28 Arbitration clauses are sacrosanct in maritime contracts Standard forms of charterparties and bills of lading reflect a desire to trade over the trusted dispute resolution choice of arbitration However when incorporating arbitration clauses disputes and interpretational complexities continue to arise evidencing that the law is not settled yet This book introduces a holistic evaluation of the commercial reasons and the legal principles that permeate the incorporation of arbitration clauses in modern maritime contracts contrasting arbitration with exclusive jurisdiction clauses where appropriate The book presents a modern specialised legal study of incorporation of arbitration clauses into maritime contracts considering recent developments and long established principles of incorporation Offering a thorough research into English European and Chinese law with the objective to assess how the incorporation of arbitration principles crystallises through the years the book will be of interest to researchers legal practitioners and commercial parties
