News Media and Hate Speech Promotion in Mediterranean Countries Said Hung, Elias, Diaz, Julio Montero, 2023-07-05 Expressions of hate are words or actions that are discriminatory hostile or violent to a person or group for racial sexual ideological ethnic or identity reasons Such expressions contribute to an environment of prejudice and intolerance towards those who are targeted The spread of hate speech has been exacerbated by the growth of

social media networks and dissemination strategies e.g. astroturfing are becoming increasingly complex. Although there has been an exponential increase in the study of hate speech in recent years, most methods have focused on the English language, limiting research of the phenomenon in other languages such as Spanish, Italian and Portuguese. It is crucial to understand the role played by digital media and journalism in the dissemination, detection and control of hate speech from current digital scenarios. News Media and Hate Speech Promotion in Mediterranean Countries provides relevant theoretical frameworks and the latest empirical research findings about hate speech studies, including its relationship with prejudice and intolerance. Covering topics such as detecting hate speech, linguistic challenges and the taxonomy of hate speech, this book is ideal for political decision makers, third sector representatives, journalists, digital media professionals and researchers.
