Mitsubishi Manual I Miev:

Mitsubishi I-MiEV, 2010 **I-MiEV**, 2010 The Electric Car Guide - Mitsubishi I-Miev the Electric Car Guide - Mitsubishi I-Miev Michael Boxwell, 2010-10 What is it really like to own and use an electric car Are they slow and dull or are they fun and exciting to drive What about practicality and range This book describes both the highs and lows of electric car ownership turns a spotlight on the environmental claims and shows how an electric car can become a convenient and easy to use option **[T]axing Greenhouse Gases** Lex Fullarton, 2019-03-30 Lex Fullarton takes a closer look at the three pillars of the sustainable development framework known as the Triple Bottom Line TBL The concept of the TBL is that for a project to be sustainable it must not simply be profitable in economic terms but it must also benefit society and enhance the natural environment In the 21st century the greatest threat to Earth's natural environment and the population of the planet is the rise of greenhouse gas emissions caused from burning fossil fuel as an energy source The rise of GHG emissions has resulted in a rise in the ambient air temperature of the Earth's atmosphere and is resulting in a significant change in climatic conditions on Earth Fullarton scrutinizes the problem of getting industry and governments to understand the significance of creating harmony within the TBL One of the main problems is that partisan politics tends to fragment the factors of the TBL rather than bring them together Fullarton takes a strong stand in suggesting that taxation systems which have traditionally been viewed primarily as a means of raising government finance can be effectively applied to influence industrial and consumer attitudes towards transiting away from polluting fossil fuel energy sources towards non polluting renewable energy use Gustave Trouve Kevin Desmond, 2015-06-29 In the latter half of the 19th century Gustave Pierre Trouve a modest but brilliant Parisian electrical engineer conceived and patented some 75 inventions including the endoscope the electric car and the frontal headlamp He also designed an electric boat complete with outboard motor headlight and horn an electric rifle an electric piano and luminous fountains and developed wearable technology and ultraviolet light therapy Unlike his famous contemporary Nikola Tesla who worked for Thomas Edison and was patronized by George Westinghouse Trouve never came to America A confirmed bachelor disinterested in industrialization he was gradually forgotten following his accidental death in 1902 This expanded edition of the 2012 French first ever biography of Trouve details the fascinating life of the Chevalier of the Legion of Honor once dubbed the French Edison **Energy, Transport, & the Environment** Oliver Inderwildi, Sir David King, 2012-03-05 Sustainable mobility is a highly complex problem as it is affected by the interactions between socio economic environmental technological and political issues Energy Transport the Environment Addressing the Sustainable Mobility Paradigm brings together leading figures from business academia and governments to address the challenges and opportunities involved in working towards sustainable mobility Key thinkers and decision makers approach topics and debates including energy security and resource scarcity greenhouse gas and pollutant emissions urban planning transport systems and their management governance and finance of transformation the threats of terrorism and climate change to our
