 Read the instructions carefully and follow them exactly. Failure to do so may result in injury or death.	 Do not touch the power cord or the power switch. The power cord and the power switch may be damaged. This may result in injury or death.	 Do not use the power cord as a support for the power cord. The power cord may be damaged. This may result in injury or death.

1. Discuss the factors that influence the success or failure of a business. Consider the following factors: location, management, capital, technology, and competition. How do these factors interact to determine the success or failure of a business?

The system is designed to operate in several 100-2000 Hz ranges only. It can also operate in the audio range at any other points desired. The manufacturer designed the radio to be a vacuum tube type operating. The radio should be converted to an IC radio like it is stated that "The fact doesn't let an IC radio be controlled by a wall switch. When the power is on the radio is always on. The radio is without battery supply, you can increase the time without changing the radio. To increase the life of the radio, it is best to use the radio continuously in a 100-2000 Hz range only."
