Erhiopia Matric 2014 Question And Answer:

National Human Development Report 2014 - Ethiopia United Nations Publications,2015 Over the 15 years since the countrys last National Human Development Report NHDR was published Ethiopia has undergone significant economic and social changes and has recorded some of the highest growth rates in the world over 10 per cent in some years However Ethiopias Human Development Index HDI and its relative ranking have not moved appreciably during the past decade Even though Ethiopia is one of the 10 countries globally that has attained the largest absolute gains in its HDI over the last several years it still ranks 173rd out of 186 countries in the latest UNDP Human Development Report It is this development challenge that underlines the fact that the preparation of the NHDR is so opportune now and why the focus of the report on inclusive growth for sustainable human development is so apposite In 1998 when the last NHDR was written the development challenges facing the country were considerably different

Structural change and poverty reduction in Ethiopia: Economy-wide analysis of the evolving role of agriculture Dorosh, Paul,Thurlow, James,Kebede, Frehiwot Worku,Ferede, Tadele,Taffesse, Alemayehu Seyoum,2018-09-06 This paper explores these issues for Ethiopia utilizing an economy wide computable general equilibrium CGE model based on a detailed social accounting matrix SAM We present the results of four alternative investment scenarios faster investment in i cities ii crop agriculture iii the rural non farm sector and agro industry and iv livestock The simulations suggest that investments in cities generate faster economic growth and structural transformation However given the large share of the population with incomes linked to agriculture and the rural economy investments in the rural economy are likely to continue to be more pro poor than urban public investments through the mid 2020s After the mid 2020s investments in cities become more pro poor In short though rapid economic growth and structural transformation have diminished the relative importance of the agricultural sector in Ethiopia s economy continued public investments in agriculture and the broader agri food system remain crucial for equity and poverty alleviation in Ethiopia as well as for reducing food import dependency

The economics of teff: Exploring Ethiopia's biggest cash crop Minten, Bart,Taffesse, Alemayehu Seyoum,Brown, Petra,2018-07-19 Considerable poverty and food insecurity in Ethiopia combined with the overwhelming majority of Ethiopians who depend on agriculture for their livelihoods make agricultural transformation a crucial development goal for the country One promising improvement is to increase production of teff the calorie and nutrient rich but low yielding staple The Economics of Teff Exploring Ethiopia s Biggest Cash Crop examines key aspects of teff production marketing and consumption with a focus on opportunities for and challenges to further growth The authors identify ways to realize teff s potential including improving productivity and resilience selecting and scaling up new technologies establishing distribution systems adapted to different areas needs managing labor demand and postharvest operations and increasing access to larger and more diverse markets The book s analysis and policy conclusions should be useful to policy makers researchers and others concerned with Ethiopia s economic development

Estimating the

Economic Wide Effect of Ethiopian Renaissance Dam on Ethiopian Economy Ashiber Tsegaye, 2020-03-23 Academic Paper from the year 2019 in the subject Economics Case Scenarios grade A Addis Ababa University language English abstract This paper examines the economy wide effect of Ethiopian renaissance dam on Ethiopian economy The model is based on an updated Social Accounting Matrix for 2014 15 that takes into account the structural changes in the economy Given the additional electricity generation capacity of Ethiopia the model run a policy simulation in which the additional 6000MW that scheduled to come online near the future form renaissance dam To analysis this policy option this paper outlined a recursive dynamic computable general equilibrium approach and hence uses the change in real GDP sectors production investment external sector household income and consumption expenditures and household s welfare relative to the baseline as an indicators of the economic wide effects of the renaissance dam In opting for policy shock the results of exercise showed that with an increment in power supply from renaissance dam the country can optimize the beneficial impacts on its economy Specifically the simulation results show a spreading out effect in real GDP sectors production real investment household income and household s consumption expenditure Results also showed improvement in the welfare for all the household categories However the shift in relative income across the household categories favors high income households Overall this paper suggests that Ethiopian economy will enjoy the largest improvement with additional power supply resulting from Ethiopian renaissance dam therefore concerned bodies should exerted maximum efforts to finalize the projects on time and resolve the age long problems of the people so that the economy maintains its tremendous progress

Economic Development under Climate Change Amsalu Woldie Yalew, 2020-02-25 Amsalu Woldie Yalew attempts to address the direct and indirect economic effects of climate change adaptation costs and adaptation finance in developing countries with emphasis to Ethiopia using a static computable general equilibrium CGE model coupled with a regional module The results show that the economy wide effects of climate change are profound Planned public adaptation that aims to fully neutralize climate change induced agricultural productivity shocks may help to avert the aggregate effects

but with residual effects The results also indicate that structural change underpins climate resilient development as it contributes to dampen the adverse consequences of climate change on aggregate GDP and households welfare **The Oxford Handbook of the Ethiopian Economy** Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia **Randomistas** Andrew Leigh, 2018-07-24 A fascinating account of how radical researchers have used experiments to overturn conventional wisdom and shaped life as we know it Experiments have consistently been used in the hard sciences but in recent decades social scientists have adopted the practice Randomized trials have been used to design policies to increase educational attainment lower crime rates elevate employment rates and improve living standards among the poor This book tells the stories of radical researchers who have used experiments to overturn conventional wisdom From finding the cure for scurvy to discovering what policies really improve literacy rates Leigh shows how randomistas have shaped life as we know it Written in a Gladwell esque style this book provides a fascinating account of key randomized control trial studies from across the globe and the challenges that randomistas have faced in getting their studies accepted and their findings implemented In telling these stories Leigh draws out key lessons learned and shows the most effective way to conduct these trials

Households' Food Insecurity and Coping Strategies in the Face of Vulnerability Mesay Kebede Duguma, 2015 This book draws attention to the livelihood and food security situation of women farmers a topic largely neglected by academic studies It elucidates in a detailed empirical examination the impact of informal social institutions on food security and coping strategies of these households in the Meskan district of southern Ethiopia The area is environmentally and socially challenged The results develop an understanding of the gender dimension of food in security and present important implications for public policy Series Spectrum Berlin Series on Society Economy and Politics in Developing Countries Spektrum Berliner Reihe zu Gesellschaft Wirtschaft und Politik in Entwicklungslandern Vol 110 Subject Sociology African

transformation and urbanization are transforming agriculture and food production in rural areas across the world This textbook provides a comprehensive review and assessment of the multi faceted nature of agriculture and rural development particularly in the developing world where the greatest challenges occur It is designed around five thematic parts Agricultural Intensification and Technical Change Political Economy of Agricultural Policies Community and Rural Institutions Agriculture Nutrition and Health and Future Relevance of International Institutions Each chapter presents a detailed but accessible review of the literature on the specific topic and discusses the frontiers in research and institutional changes needed as societies adapt to the transformation processes All authors are eminent scholars with international reputations who have been actively engaged in the contemporary debates around agricultural development and rural transformation **Modeling the economywide effects of water and energy interventions in the face of climate change**

Aragie, Emerta,Gebretsadik, Yohannes,2024-01-16 The Ethiopian economy relies predominantly on rainfed agriculture for income generation export earnings and rural livelihoods However the frequency and intensity of extreme agri climatic events projected by climate scenarios suggest considerable and growing risks from climate change to the country s agri food systems and the overall economy This study assesses the economic impacts of recurrent climate shocks on the Ethiopian economy to 2040 The results indicate that recurrent climate shocks will lead to a reduction in Ethiopia s cumulative GDP from 2020 to 2040 compared to a no climate change baseline Specifically extreme weather events could cumulatively cost Ethiopia up to 17 percent or US 534 3 billion in GDP between 2020 and 2040 compared to a no climate change baseline The weight of the economic loss is concentrated in the agricultural production sector with rural households and poorer households in urban areas being worst affected Strategic investments in irrigation infrastructure and in hydroelectricity generation are found to be effective in mitigating some of the damage caused by recurrent climate variability

ECDG 2018 18th European Conference on Digital Government Ramon Bouzas-Lorenzo,Andres Cernadas Ramos,2018-10-25 The European Conference on e Government has been running now for 18 years This event has been held in Italy Ireland Belgium UK Slovenia to mention a few of the countries who have hosted it This year we are refocusing the conference to look more broadly at the area of Digital Government The conference is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars public sector workers and individuals who are engaged in various aspects of Digital Government research and application Ethiopia's agrifood system: Past trends, present challenges, and future scenarios Dorosh, Paul A., ed.,Minten, Bart, ed.,2020-09-14 Ethiopia has experienced impressive agricultural growth and poverty reduction stemming in part from substantial public investments in agriculture Yet the agriculture sector now faces increasing land and water constraints along with other challenges to growth Ethiopia s

Agrifood System Past Trends Present Challenges and Future Scenarios presents a forward looking analysis of Ethiopia's agrifood system in the context of a rapidly changing economy Growth in the agriculture sector remains essential to continued poverty reduction in Ethiopia and will depend on sustained investment in the agrifood system especially private sector investment Many of the policies for a successful agricultural and rural development strategy for Ethiopia are relevant for other African countries as well Ethiopia's Agrifood System should be a valuable resource for policymakers development specialists and others concerned with economic development in Africa south of the Sahara

The short-term impact of COVID-19 on Ethiopia's economy through external sector channels: An economywide multiplier model analysis Aragie, Emerta, Taffesse, Alemayehu Seyoum, Tamru, Seneshaw, 2020-12-09 The COVID 19 pandemic is expected to considerably affect the Ethiopian economy directly and indirectly due to global shocks and to the different restrictive preventative measures the country is taking We analyze these economic effects using multisector economywide income multiplier models built on the two latest Social Accounting Matrices SAMs developed for Ethiopia Three external sector channels are the focus of the analysis commodity exports strategic imports and remittances Results indicate that in the absence of any policy responses the Ethiopian economy is expected to experience a loss of approximately 4.3 to 5.5 percent of its annual GDP due to exports strategic imports and remittances that are one third lower relative to the no COVID situation over a period of six months This translates into estimated reductions in labor income of between 4.2 and 5.2 percent The SAM multiplier model estimates also imply that these negative shocks lead to household income losses that amount to between 3.9 and 6.4 percent In particular the urban poor will be the most affected as they lose real incomes in the range of 6.6 to 8.5 percent These income losses are estimated to result in a 3.5 percentage point rise in the national poverty headcount
