Escalation-of-Force Flow

EOF flow:

- Audible warnings (horns, loudspeakers, sirens, flash-bang device)
- Visual warnings (hand signals, spotlights/flashlights, green lasers, display of weapon and demonstration of intent to engage, signs)
- Physical restraint or blocking of access (convoy T-formation)
- Nonlethal M203 round (if available)
- Warning shots in vicinity of threatening vehicle (tracer if available)
- Disabling fire focused on tires and engine of threatening vehicle
- Deadly force

Note: Escalation-of-force flow is illustrative and assumes that security-vehicle turret gunners feel that the approaching vehicle is continuing to present a threat. If a vehicle demonstrates compliance or is evaluated as non-threatening, the escalation-of-force flow would cease.

Levers of Power Michael Schwartz,Tarun Banerjee,Kevin A. Young,2020-07-07 It s no secret that the 1% the business elite that commands the largest corporations and the connected network of public and private institutions exercise enormous control over U S government While this control is usually attributed to campaign donations and lobbying Disruptive Power argues that corporate power derives from control over the economic resources on which daily life depends Government officials must constantly strive to keep capitalists happy lest they go on capital strike that is refuse to invest in particular industries or locations or move their holdings to other countries and therefore impose material hardship on specific groups or the economy as a whole For this reason even politicians who are not dependent on corporations for their electoral success must fend off the interruption of corporate investment Disruptive Power documents the pervasive power of corporations and other institutions with decision making control over large pools of capital particularly the Pentagon It also shows that the most successful reform movements in recent U S history for workers rights for civil rights and against imperialist wars succeeded

by directly targeting the corporations and other institutional adversaries that initiated and benefitted from oppressive policies Though most of today s social movements focus on elections and politicians movements of the 99% are most effective when they inflict direct costs on corporations and their allied institutions This strategy is also more conducive to building a revolutionary mass movement that can replace current institutions with democratic alternatives *Retail Crime, Security, and Loss Prevention* Charles A.
