

QUESTION 1**(60 MINUTES: 30 MARKS)****PART A****(20 Marks)**

The profit before tax as reflected in the draft statement of profit and loss and other comprehensive income of Sword Ltd for the financial years ended 31 December 2018 and 31 December 2017 respectively was follows:

	2018	2017
Profit before tax	R1 561 000	R 950 000

Additional information:

The following items have not yet been accounted for in the above-mentioned draft statement of profit and loss and other comprehensive income of Sword Ltd:

- On 31 December 2018, the board of directors decided, after completing the draft statement of comprehensive income, to change the accounting policy with respect to the inventory valuation, from the weighted average method to the first-in-first-out method in order to provide a fairer presentation of the financial position and operating results due to fluctuations in inventory prices.

Inventory is valued as follows using both methods:

	2016	2017	2018
	R	R	R
Weighted average method	42 000	132 000	226 000
First-in-first-out	67 000	167 400	263 300

The South Africa Revenue Service will not re-open the previous years' tax assessments as a result of this new method of valuation of inventory, however, the new policy will be accepted for tax purposes from the 2018 financial period onwards.

- Retained earnings at 31 December 2016 and 31 December 2017 amounted to R150 000 and R924 288 respectively.
- During the current financial year, the accountant of Sword Ltd discovered found a batch of sales invoices amounting to R90 000 that were not processed during the financial year ended 31 December 2017. The error was due to misfiling. The sales invoices were filed in the order pending file instead of the sales invoice file. Yet, the cost of sales associated with these invoices were taken into account in 2017 financial period. The effect thereof is considered material on the financial statements and the South African Revenue Service have indicated that they will be re-opening the 2017 assessment as a result of this error.
- The current tax rate of 28% has remained unchanged for the past five years.
- Deferred tax is provided for on all temporary differences using the statement of financial position approach.
- There are no temporary differences, exempted income or non-deductible expenses other than those indicated on the information presented.

Grade 1 accounting Exemplar November 2011

Chao Zhang

Grade 1 accounting Exemplar November 2011:
