Great American Educators A. E. Winship, 2015-06-24 Excerpt from Great American Educators With Chapters on American Education Children do not often play that they are poets or inventors soldiers or sailors but they love to play school and church One of the first aspirations of ordinary children is to teach or to preach The teacher and the preacher are their early ideals of greatness This results from what they see and know and not from anything that they hear about these leaders They are told of the acts of heroic soldiers and sailors of great orators and inventors of famous poets and artists But teachers and preachers are rarely the subjects of stories and they seldom in any way give an impression that there have been great leaders in either of these professions Most teachers take pleasure in relating to their pupils inspiring stories of famous men and women who have made the world better by having lived in it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
