

HYDRONIC RADIANT HEATING SYSTEM

Hydronic radiant heating & cooling systems can be installed in many ways to create a wonderfully warm room environment.

These include:

1. Pipes embedded in the concrete floor.
2. Pipes in a floating floor system.
3. Pipes fixed to the underside of a wooden floor.
4. Pipes embedded in the walls of a room.
5. Pipes embedded in the ceiling of a room.
6. All these methods offer many practical benefits to suit the needs of all.
7. Hydronic radiant heating has been used for centuries. In the last few years, significant improvements in the technology together with the realisation of the benefits of this form of heating and cooling have created a rapid rise in installations. **Tiemme** has been one of the companies leading the way.

Benefits - Tiemme radiant floor, wall or ceiling heating, provides energy saving with comfort, quiet and clean operation, with room versatility and choice of energy usage.

Energy Saving - Room temperatures can be set as much as 3 degrees lower and still maintain the required comfort level. In houses with high ceilings the savings can be significant.

Ultimate Comfort - Rooms can be heated to different temperatures according to their usage. Zones can be set to heat rooms at different times to eliminate cold rooms often during a relative short period of usage. The floors are always comfortably warm no matter what the floor coverings are.

Quiet Operation - **Tiemme** radiant floor heating systems operate without noise and draughts. Air movement is kept to a minimum so dust and germs are not spread around the house.

Choice of Surfaces - **Tiemme** radiant heating systems can be installed in a concrete floor on the ground or suspended below with wooden floors and even in the walls or ceiling. The choices are unlimited.

Freedom to decorate - As the heat gently radiates from the whole of the floor there are no obstructions or limitations for the placement of furniture.

Choice of energy - **Tiemme** radiant systems can be powered by a gas-fired boiler, a combination of heat pump and solar collectors, solid fuel boiler or any new energy system yet to be discovered. This means your heating system is always ready for the future.

Healthy Choice - Over the years people who have switched from forced air to floor radiant heating have greatly improved their allergy problems. This is attributed to less dust blowing around.

Zero maintenance - Once installed **Tiemme** radiant floor heating does not require routine maintenance or cleaning.
