## **Identity And Capitalism:**

**Identity and Capitalism** Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies

**Identity Capitalists** Nancy Leong, 2021-02-09 Nancy Leong reveals how powerful people and institutions use diversity to their own advantage and how the rest of us can respond and do better Why do people accused of racism defend themselves by pointing to their black friends Why do men accused of sexism inevitably talk about how they love their wife and daughters Why do colleges and corporations alike photoshop people of color into their websites and promotional materials And why do companies selling everything from cereal to sneakers go out of their way to include a token woman or person of color in their advertisements In this groundbreaking book Nancy Leong coins the term identity capitalist to label the powerful insiders who eke out social and economic value from people of color women LGBTQ people the poor and other outgroups Leong deftly uncovers the rules that govern a system in which all Americans must survive the identity marketplace She contends that the national preoccupation with diversity has counterintuitively allowed identity capitalists to infiltrate the legal system educational institutions the workplace and the media Using examples from law to literature from politics to pop culture Leong takes readers on a journey through the hidden agendas and surprising incentives of various ingroup actors She also uncovers a dire dilemma for outgroup members do they play along and let their identity be used by others or do they protest and risk the wrath of the powerful Arming readers with the tools to recognize and mitigate the harms of exploitation Identity Capitalists reveals what happens when we prioritize diversity over equality **Identity Capitalists** Nancy

Jackson

II,2010-06-29 The two volumes of this encyclopedia seek to explore myriad ways in which we define ourselves in our daily lives Comprising 300 entries the Encyclopedia of Identity offers readers an opportunity to understand identity as a socially constructed phenomenon a dynamic process both public and private shaped by past experiences and present circumstances and evolving over time Offering a broad comprehensive overview of the definitions politics manifestations concepts and ideas related to identity the entries include short biographies of major thinkers and leaders as well as discussions of events personalities and concepts The Encyclopedia of Identity is designed for readers to grasp the nature and breadth of identity as a psychological social anthropological and popular idea Key Themes ArtClass Developing Identities Gender Sex and Sexuality Identities in Conflict Language and Discourse Living Ethically Media and Popular Culture Nationality Protecting Identity Race Culture and Ethnicity Relating Across Cultures Religion Representations of Identity Theories of Identity      Social Constructionist Identity Politics and Literary Studies

S. Gupta,2007-01-10 This study presents a critique of social constructionist identity politics which is distinguished from specific identity based political positions from within and with social constructionist commitments Gupta examines the institutionalization of social constructionist identity politics in literary studies considering the notions of canonicity      **Universality and Identity Politics** Todd McGowan,2020-07-21 The great political ideas and movements of the modern world were founded on a promise of universal emancipation But in recent decades much of the Left has grown suspicious of such aspirations Critics see the invocation of universality as a form of domination or a way of speaking for others and have come to favor a politics of particularism often derided as identity politics

Others both centrists and conservatives associate universalism with twentieth century totalitarianism and hold that it is bound to lead to catastrophe This book develops a new conception of universality that helps us rethink political thought and action Todd McGowan argues that universals such as equality and freedom are not imposed on us They emerge from our shared experience of their absence and our struggle to attain them McGowan reconsiders the history of Nazism and Stalinism and reclaims the universalism of movements fighting racism sexism and homophobia He demonstrates that the divide between Right and Left comes down to particularity versus universality Despite the accusation of identity politics directed against leftists every emancipatory political project is fundamentally a universal one and the real proponents of identity politics are the right wing Through a wide range of examples in contemporary politics film and history *Universality and Identity Politics* offers an antidote to the impasses of identity and an inspiring vision of twenty first century collective struggle Religion and the Individual: Belief, Practice, and Identity Douglas J. Davies, Michael J. Thate, 2018-07-05 This

book is a printed edition of the Special Issue *Religion and the Individual: Belief Practice and Identity* that was published in *Religions* **Citizenship and Identity** Engin F Isin, Patricia K Wood, 1999-09-08 Through a detailed introductory discussion of the relation between the civil and the political and between recognition and representation this book provides a comprehensive vocabulary for understanding citizenship It uses the work of T H Marshall to frame the critical interrogation of how ethnic technological ecological cosmopolitan sexual and cultural rights relate to citizenship The authors show how the civil political and social meanings of citizenship have been redefined by postmodernization and globalization **Marxism**

**and Education beyond Identity** F. Agostinone-Wilson, 2010-10-11 This book seeks to revive dialectical materialist interpretations of sexuality relevant to K 12 settings and society Issues addressed include sexuality and the curriculum theories of the family critiques of postmodernism socialist feminism and activist tactics strategies for organizing in K 12 settings Chinese Enterprise, Transnationalism and Identity Terence Gomez, Hsin-Huang Michael Hsiao, 2004-03-01 First Published in 2004 *Chinese Enterprise Transnationalism and Identity* focuses on one ethnic community the Chinese and examines the variety of issues surrounding enterprise development from national and transnational perspectives starting with the role played by Chinese entrepreneurs in the 1997 Asian financial crisis Using empirical evidence and theoretical debate the contributors argue that Chinese enterprise is accelerated by intra ethnic competition rather than intra ethnic cooperation and that businessmen work in their own interest not that of the Chinese community as other literature dealing with the subject suggests Themes which this book radically reviews include Culture and networks Family business Ownership and control Transnationalism and identity By carefully tracing the emergence of new generations the contributors suggest that new forms of ethnic identification and of national identity and affiliation have emerged With its combined analysis of ethnic minorities in Asia and of Chinese business this book will appeal to scholars of Asian and business studies alike

Identity, Mediation, and the Cunning of Capital Ani Maitra, 2020-05-15 In *Identity Mediation and the Cunning of Capital*

Ani Maitra urgently calls for a reevaluation of identity politics as an aesthetic maneuver regulated by capitalism. A dominant critical trend in the humanities Maitra argues is to dismiss or embrace identity through the formal properties of a privileged aesthetic medium such as literature, cinema, or even the performative body. In contrast, he demonstrates that identity politics becomes unavoidably real and material only because the minoritized subject is split between multiple sites of mediation: visual, linguistic, and sonic, while remaining firmly tethered to capitalism's hierarchical logic of value production. Only in the interstices of media can we track the aesthetic conversion of identitarian difference into value marked by the inequities of race, class, gender, and sexuality. Maitra's archive is transnational and multimodal. Moving from anticolonial polemics to psychoanalysis to diasporic experimental literature to postcolonial feminist and queer media, he lays bare the cunning by which capitalism produces and fragments identity through an intermedial aesthetic dissonance with the commodity form. Maitra's novel contribution to theories of identity and to the concept of mediation will interest a wide range of scholars in media studies, critical race, and postcolonial studies, and critical aesthetics.

*Rethinking Identity in Modern Japan* Yumiko Iida, 2002. This volume is a major reconsideration of Japanese late modernity and national hegemony, which examines the creative and academic works of a number of influential Japanese thinkers. The author situates the process of Japanese knowledge production in the interface between the immediate historical and the wider socio-economic and politico-cultural contexts accompanying the Japanese post-war experience of modernity. This book will be of great value to anyone interested in the history of contemporary Japanese culture and society.

**Intercultural Communication** Kathryn Sorrells, Sachi Sekimoto, 2025-07-08. *Intercultural Communication: Globalization and Social Justice* introduces students to the study of communication among cultures within the broader context of globalization. Kathryn Sorrells and new co-author Sachi Sekimoto highlight history, power, and global institutions as central to understanding the relationships and contexts that shape intercultural communication. Based on a framework that promotes critical thinking, reflection, and action, this text takes a social justice approach that equips students with the skills and knowledge to create a more equitable world through communication. The new Fourth Edition includes additional case studies and expanded discussions of the backlash to globalization, the rise of ethnonationalism, decline of democracy, new media, and new technologies, and implications for intercultural communication.

*Marx and Laozi* James Chambers, 2023-11-03. In this work, the theories of Marx and Laozi are dialectically combined. The resulting synthesis is a positive materialist negation of Hegel's idealist dialectics. Syntheses are presented for Marx and Laozi in ontology, metaphysics, epistemology, scientific method, ethics, and politics, the full spectrum of their foundational principles. The book is an attempt to reconstruct a materialist interpretation of Laozi which can be put to work for Marxist theory.
