education He argues that the National Curriculum should extend only to the age of 14 and that there should be four distinct pathways from 14 18 to take account of young people s emerging interests talents and ambitions Liberal Arts Technical Sports and Creative Arts and Career All pathways will provide a broad education but each will have a distinctive character matched to the talents and ambitions of individual students In 14 18 A New Vision for Secondary Education Kenneth Baker builds a compelling case for reform with contributions from a range of educationalists who draw on the history of English education practice elsewhere in the world and their experiences An essential read for anyone interested in the future of secondary education
