Code of Federal Regulations, 2012 Special edition of the Federal Register containing a codification of documents of
general applicability and future effect with ancillaries Chemical Spills and Emergency Management at Sea P. Bockholts, I.
Heidebrink, 2012-12-06 International shipping is of great importance for the transport of a great many types of cargo
Substances and products considered dangerous constitute almost 50% of all the payload It is obvious that stringent
regulations are required in order to minimize the risks of accidents These regulations which are derived from good practice
and which are based on research have been adopted by a great number of countries However emergencies do occur in spite
of all precautions Such emergencies require fast and adequate response in order to confine the consequences for man and
his environment to a minimum Emergency response has political legal financial and technical aspects This makes decision
making extremely difficult The papers carefully prepared and assembled in this book present an up to date picture of today's
achievements knowledge and difficulties that are being faced It was the intention of Oilchem Recovery Denmark and TNO to
bring the wide scatter of aspects together in a joined perspective We also intended to spread the information on latest
developments among the many people who are involved in combating calamities and in particular in decision making Finally
we hope that this conference may help all of us to come to a safer transport of chemicals and a better aquatic environment
We thank all the authors for their magnificent contribution Risk Management of Complex Inorganic Materials Violaine
