SEA HORSE

65

Just ask the guys
who race this one.

The 65 is the
oldest motor that is
others in its wake.

Or ask the
who troll with it
after day out to
lighthouse.

They'll tell you it's slow. Smooth. Economical.
The Sea-Horse 65 is an engine with a split
personality. It'll do what you want it to, precisely
the way you want.

We planned it that way.

With so many advanced features that some
pilots are going back to the drawing board.

Here's why:

We added a refined exhaust tuning system

Somewhere I heard a story of a bridge and a painter The bridge was enormous and was made all of metal and the painter's job was to keep it from rusting He would start at one end and slowly proceed day by day month by month toward the other end painting the bridge But no sooner would he finish with the painting than the bridge would begin to rust again The rust too would start at one end and slowly proceed toward the other end systematically destroying the painter's endeavor And so the painter would return to where he had started and begin painting again slowly proceeding toward the other end of the bridge always just one step ahead of the rust And if the story is true the painter might still be painting that bridge a modern Sisyphus During the writing of this book the story of the painter and his bridge kept coming to mind The field the book covers has been developing so rapidly that like the painter I too had to return to where I had started and fight the rust of obsolescence But unlike the painter I had a deadline to meet which constituted a point of no return And so sending off this manuscript I have no choice but to watch the fruits of my endeavor be overtaken by the rust

Origin of Thermoremanent Magnetization David J. Dunlop, 2012-12-06

Physical and chemical studies of the earth and planets along with their surroundings are now developing very rapidly As these studies are of essentially international character many international conferences symposia seminars and workshops are held every year To publish proceedings of these meetings is of course important for tracing development of various disciplines of earth and planetary sciences though publishing is fast getting to be an expensive business It is my pleasure to learn that the Center for Academic Publications Japan and the Japan Scientific Societies Press have agreed to undertake the publication of a series *Advances in Earth and Planetary Sciences* which should certainly become an important medium for conveying achievements of various meetings to the academic as well as non academic scientific communities It is planned to publish the series mostly on the basis of proceedings that appear in the *Journal of Geomagnetism and Geoelectricity* edited by the

Society Of Terrestrial Magnetism and Electricity of Japan the Journal of Physics of the Earth by the Seismological SOCIety of Japan and the Volcanological Society of Japan and the Geochemical Journal by the Geochemical Society of Japan although occasional volumes of the series will include independent proceedings Selection of meetings of which the proceedings will be included in the series will be made by the Editorial Committee for which I have the honour to work as the General Editor

New Politics in the Old South David T. Ballantyne, 2016-11-15 The first scholarly account of the South Carolina Democrat s career and the transformation of Southern U S politics and society during the civil rights era New Politics in the Old South is the first scholarly biography of Ernest F Fritz Hollings a key figure in South Carolina and national political developments in the second half of the twentieth century Throughout his career Hollings was renowned for his willingness to voice unpleasant truths as when he called for the peaceful acceptance of racial desegregation at Clemson University in 1963 and acknowledged the existence of widespread poverty and malnutrition in South Carolina in 1969 David T Ballantyne uses Hollings s career as a lens for examining the upheaval in southern politics and society after World War II Hollings s political career began in 1948 when he was elected to the South Carolina House of Representatives He served as governor from 1959 to 1963 and then as a U S senator from 1966 until he retired in 2005 Ballantyne illuminates Hollings s role in forging a southern strategy that helped move southern Democrats away from openly endorsing white supremacy and toward acknowledging the interests of racial minorities though this approach was halting and reluctant at times Unlike many southern politicians who emerged as reactionary figures during the civil rights era Hollings adapted to the changing racial politics of the 1960s while pursuing a clear course Vietnam War hawk fiscal conservative regional economic booster and free trade opponent While Hollings was at times an atypical southern senator his behavior in the 1960s and 1970s served as a model for survival as a southern Democrat His approach to voting rights military spending and social and cultural issues was mirrored by many southern Democrats between the 1970s and 1990s Hollings s career demonstrated an alternative to hard edged political conservatism one that was conspicuously successful throughout his Senate tenure
