Joint Shipboard Helicopter Operations

By GEOFFREY C. LAMBERT and MARK M. HUBER

The use of both Army and Air Force helicopters from ships during contingency operations in Grenada, Panama, Somalia, and Haiti suggests that helicopters of all services should be capable of operating from naval vessels. But daunting incompatibilities exist between helicopters and ships from which they operate. Although the safe execution

of past operations speaks well of the skill of the squadrons and ships involved, failing to resolve incompatibilities belies a serious dysfunction: the inability to address lessons learned to improve joint operations.

Understanding joint shipboard helicopter operations enables planners to efficiently prepare for the future. Such operations are likely to be short fused, highly visible, and dynamic in terms of the type and scale of missions. Considering joint shipboard helicopter operations in support of Uphold Democracy in Haiti and Earnest Will in the Persian Gulf is illustrative.

Major General Geoffrey C. Lambert, USA, directs the Center for Operations, Plans, and Policy at U.S. Special Operations Command and Lieutenant Commander Mark M. Huber, USN, serves as an air allocations officer at U.S. Special Operations Command.

Joint Shipboard Helicopter Operations Human Factors Issues
