Contemporary Chinese Literature Zicheng Hong, 2007-10-15 This groundbreaking book by the eminent Peking University professor Hong Zicheng covers the literary scene in China during the 1949-1999 period primarily focusing on fiction poetry drama and prose writing Reprinted sixteen times since its publication in the PRC in 1999 it is now available in English translation at last The first section of the book deals with the 1949-1976 period Often derided and ignored as an arid era for literature by both Chinese and overseas critics Professor Hong describes the literature that was popular and officially acceptable at the time and the cultural policies and political campaigns that shaped the tastes of readers and the literary creativity of writers during the period This part of the book is remarkable for Professor Hong's candidness and open mindedness qualities that would have made this text difficult to publish at an earlier date in China Furthermore the platform that the first part of the text provides renders the second part even more understandable to readers unfamiliar with the post 1976 literary scene and offers new insights to those who are familiar with it demonstrating as it does the close links between the two distinctive eras These links are provided by the resumption of literary traditions that had been more or less abandoned during the preceding ten year period as well as reactions against literature nurtured and guided by the state cultural apparatus The second part of the book consists of a comprehensive description of developments and insightful explanations of those developments in the literary arts and literary criticism since 1976 A unique and much needed accomplishment in contemporary literary studies Also available in paperback America, History and Life, 2003 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Historical Abstracts**, 1993

**Encyclopedia of Chinese History** Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are

open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture
