

Laboratory Exercise Systems Analysis Activities

Objective:

At the end of the exercise, the students should be able to:

- Develop a Unified Modeling Language activity diagram to model workflows.

Software Requirement:

- MS Office

Instruction:

1. Read and understand the case study carefully.
2. Provide a clear and complete answer to every requirement in the case.
3. These activities closely relate to Core Process 3: Discover and understand the details of systems analysis.

The Spring Breaks 'R' Us Travel Service

Spring Breaks 'R' Us (SBRU) is an online travel service that books spring break trips to resorts for college students. Students have booked spring break trips for decades, but changes in technology have transformed the travel business in recent years. SBRU moved away from having campus reps with posted fliers and moved to the Web early on. The basic idea is to get a group of students to book a room at a resort for one of the traditional spring break weeks. SBRU contracts with dozens of resorts in the key spring break destinations like Florida, Texas, the Caribbean, and Mexico. Its website shows the information on each resort and includes prices, available rooms, and special features. Students can research and book a room, enter contract information, and pay deposits and final payments through the system. SBRU provides updated booking information, resort information updates, and travel information for booked students when they log in to the site.

The resorts also need access to information from SBRU. They need to know about their bookings for each week, the room types that are booked, and so forth. Before the spring break booking season starts, they need to enter information on their resorts, including prices and special features. Resorts need to be paid by SBRU for bookings, and they need to be able to report and collect for damages caused by spring breakers during their stay.

SBRU has recently decided to upgrade its system to provide social networking features for students. It is currently researching possibilities and collecting information from prospective customers about desirable features and functions. From the business standpoint, the idea is to increase bookings by enhancing the experience before, during, and after the trip.

1. Who are the stakeholders for SBRU? For each type of stakeholder, what aspects of the SBRU booking system are of particular interest?

The stakeholders for SBRU include:

- Students: They are interested in researching and booking rooms, accessing updated booking and travel information, and having a smooth experience before, during, and after the trip.
- Resorts: They need access to booking information, payment details, and the ability to report and collect for damages caused by spring breakers.
- SBRU Administrators: They are responsible for managing the booking system, coordinating with resorts, and ensuring a seamless experience for students.

Laboratory Exercise 52 Part

A Loxley

Laboratory Exercise 52 Part:

As recognized, adventure as capably as experience practically lesson, amusement, as capably as promise can be gotten by just checking out a books **Laboratory Exercise 52 Part** in addition to it is not directly done, you could take on even more in this area this life, in the region of the world.

We pay for you this proper as capably as simple quirk to acquire those all. We have the funds for Laboratory Exercise 52 Part and numerous books collections from fictions to scientific research in any way. in the middle of them is this Laboratory Exercise 52 Part that can be your partner.
