are also beginning to recognize the advantages of PEVs over conventional vehicles such as lower operating costs smoother operation and better acceleration the ability to fuel up at home and zero tailpipe emissions when the vehicle operates solely on its battery There are however barriers to PEV deployment including the vehicle cost the short all electric driving range the long battery charging time uncertainties about battery life the few choices of vehicle models and the need for a charging infrastructure to support PEVs What should industry do to improve the performance of PEVs and make them more attractive to consumers At the request of Congress Overcoming Barriers to Deployment of Plug in Electric Vehicles identifies barriers to the introduction of electric vehicles and recommends ways to mitigate these barriers This report examines the characteristics and capabilities of electric vehicle technologies such as cost performance range safety and durability and assesses how these factors might create barriers to widespread deployment Overcoming Barriers to Deployment of Plug in Electric Vehicles provides an overview of the current status of PEVs and makes recommendations to spur the industry and increase the attractiveness of this promising technology for consumers Through consideration of consumer behaviors tax incentives business models incentive programs and infrastructure needs this book studies the state of the industry and makes recommendations to further its development and acceptance Solar Powered Charging Infrastructure for Electric Vehicles Larry E. Erickson, Jessica Robinson, Gary Brase, Jackson Cutsor, 2016-10-14 The Paris Agreement on Climate Change adopted on December 12 2015 is a voluntary effort to reduce greenhouse gas emissions In order to reach the goals of this agreement there is a need to generate electricity without greenhouse gas emissions and to electrify transportation An infrastructure of SPCSs can help accomplish both of these transitions Globally expenditures associated with the generation transmission and use of electricity are more than one trillion dollars per year Annual transportation expenditures are also more than one trillion dollars per year Almost everyone will be impacted by these changes in transportation solar power generation and smart grid developments The benefits of reducing greenhouse gas emissions will differ with location but all will be impacted This book is about the benefits associated with adding solar panels to parking lots to generate electricity reduce greenhouse gas emissions and provide shade and shelter from rain and snow The electricity can flow into the power grid or be used to charge electric vehicles EVs Solar powered charging stations SPCSs are already in many parking lots in many countries of the world The prices of solar panels have decreased recently and about 30% of the new U S electrical generating capacity in 2015 was from solar energy More than one million EVs are in service in 2016 and there are significant benefits associated with a convenient charging infrastructure of SPCSs to support transportation with electric vehicles Solar Powered Charging Infrastructure for Electric Vehicles A Sustainable Development aims to share information on pathways from our present situation to a world with a more sustainable transportation system with EVs SPCSs a modernized smart power grid with energy storage reduced greenhouse gas emissions and better urban air quality Covering 200 million parking spaces with solar panels can generate about 1/4 of the electricity that was generated in 2014 in the United States Millions of EVs with 20

to 50 kWh of battery storage can help with the transition to wind and solar power generation through owners responding to time of use prices Written for all audiences high school and college teachers and students those in industry and government and those involved in community issues will benefit by learning more about the topics addressed in the book Those working with electrical power and transportation who will be in the middle of the transition will want to learn about all of the challenges and developments that are addressed here
