Henry Ford

My Life And Work:

My Life and Work Henry Ford, Samuel Crowther, 1922 *My Life and Work* is a classic autobiography of the great American business mogul Henry Ford. Henry Ford (July 30, 1863 – April 7, 1947) was an American industrialist, the founder of the Ford Motor Company, and sponsor of the development of the assembly line technique of mass production. Although Ford did not invent the automobile or the assembly line, he developed and manufactured the first automobile that many middle-class Americans could afford. This is his story in his own words. Although Ford did not invent the automobile or the assembly line, he developed and manufactured the first automobile that many middle-class Americans could afford. In doing so, Ford converted the automobile from an expensive curiosity into a practical conveyance that would profoundly impact the landscape of the 20th century. His introduction of the Model T automobile revolutionized transportation and American industry. As the owner of the Ford Motor Company, he became one of the richest and best-known people in the world. He is credited with Fordism: mass production of inexpensive goods coupled with high wages for workers. Ford had a global vision with consumerism as the key to peace. His intense commitment to systematically lowering costs resulted in many technical and business innovations, including a franchise system that put dealerships throughout most of North America and in major cities on six continents. Ford left most of his vast wealth to the Ford Foundation and arranged for his family to control the company permanently. Ford was also widely known for his pacifism during the first years of World War I and for promoting antisemitic content, including *The Protocols of the Elders of Zion* through his newspaper *The Dearborn Independent* and the book *The International Jew*. Henry Ford was born July 30, 1863, on a farm in Greenfield Township, Michigan.² His father, William Ford (1826–1905), was born in County Cork, Ireland, to a family that was originally from Somerset, England.³ His mother, Mary Ford nee Litogot (1839–1876), was born in Michigan as the youngest child of Belgian immigrants; her parents died when she was a child, and she was adopted by neighbors, the O'Herns. Henry Ford's siblings were Margaret Ford (1867–1938), Jane Ford (c. 1868–1945), William Ford (1871–1917), and Robert Ford (1873–1934). His father gave him a pocket watch in his early teens. At 15, Ford dismantled and reassembled the timepieces of friends and neighbors, dozens of times, gaining the reputation of a watch repairman.⁴ At twenty, Ford walked four miles to their Episcopal church every Sunday.⁵ Ford was devastated when his mother died in 1876. His father expected him to eventually take over the family farm, but he despised farm work. He later wrote, "I never had any particular love for the farm; it was the mother on the farm I loved."⁶ In 1879, Ford left home to work as an apprentice machinist in Detroit, first with James F. Flower Bros. and later with the Detroit Dry Dock Co. In 1882, he returned to Dearborn to work on the family farm, where he became adept at operating the Westinghouse portable steam engine. He was later hired by Westinghouse to service their steam engines. During this period, Ford also studied bookkeeping at Goldsmith Bryant Stratton Business College in Detroit. *My Life and Work* Henry Ford, 2018-10-09. My Life and Work (Large Print) Henry Ford,2013-01-31 In My Life and Work Henry Ford shares his life victories and defeats His life lessons belief in hard work and the goodness of men are a constant belief that he shows throughout this book The management ethics and observations of his life and great deeds Ford is an American icon and has the spirit that built the country We have only started on our development of our country we have not as yet with all our talk of wonderful progress done more than scratch the surface The progress has been wonderful enough but when we compare what we have done with what there is to do then our past accomplishments are as nothing When we consider that more power is used merely in ploughing the soil than is used in all the industrial establishments of the country put together an inkling comes of how much opportunity there is ahead And now with so many countries of the world in ferment and with so much unrest every where is an excellent time to suggest something of the things that may be done in the light of what has been done

Pestalozzi: His Life and Work Roger de baron Guimps,1890 *The People's Tycoon* Steven Watts,2009-03-04 How a Michigan farm boy became the richest man in America is a classic almost mythic tale but never before has Henry Ford s

outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography. The real Henry Ford was a tangle of contradictions. He set off the consumer revolution by producing a car affordable to the masses, all the while lamenting the moral toll exacted by consumerism. He believed in giving his workers a living wage, though he was entirely opposed to union labor. He had a warm and loving relationship with his wife but sired a son with another woman. A rabid anti-Semite, he nonetheless embraced African American workers in the era of Jim Crow. Uncovering the man behind the myth, situating his achievements and their attendant controversies firmly within the context of early twentieth-century America, Watts has given us a comprehensive, illuminating, and fascinating biography of one of America's first mass culture celebrities.
