The Life Cycle of Clusters Dirk Fornahl, Robert Hassink, 2017-04-28 One size fits all cluster policies have been rightly criticized in the literature One promising approach is to focus cluster policies on the specific needs of firms depending on the stage of development emergence growth sustainment or decline their cluster is in In this highly insightful book these stage specific cluster policies are analysed and evaluated Moreover several chapters also focus on smart specialization policies to promote regional development by taking into account the emergence and adaptation of clusters and industries

America Ascendant Stanley B. Greenberg, 2015-11-03 America is poised to lead the 21st Century as it led the 20th That will happen because the country is at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America's energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America's on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country's growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed

The Nature of Data Jenny Goldstein, Eric Nost, 2022-10 When we look at some of the most pressing issues in environmental politics today it is hard to avoid data technologies Big data artificial intelligence and data dashboards all promise revolutionary advances in the speed and scale at which governments corporations conservationists and even individuals can respond to environmental challenges By bringing together scholars from geography anthropology science and technology studies and ecology *The Nature of Data* explores how the digital realm is a significant site in which environmental politics are waged This collection as a whole makes the argument that we cannot fully understand the current conjuncture in critical global environmental politics without understanding the role of data platforms devices standards and institutions In particular *The Nature of Data* addresses the contested practices of making and maintaining data infrastructure the imaginaries produced by data infrastructures the relations between state and civil society that data infrastructure reworks and the conditions under which technology can further socio ecological justice

instead of re entrenching state and capitalist power This innovative volume presents some of the first research in this new but rapidly growing subfield that addresses the role of data infrastructures in critical environmental politics *Maritime Mobilities* Jason Monios,Gordon Wilmsmeier,2017-12-01 The central concerns of mobilities research exploring the broader context and human aspects of movement are fundamental to an understanding of the maritime freight transport sector Challenges to the environment attempts at more sustainable practices changes in the geoeconomic system political power labour economic development and governance issues are all among the topics covered in this book The aim of this volume is to address issues of maritime transport not only in the simple context of movement but within the mobilities paradigm The goal is to examine negative system effects caused by blockages and inefficiencies examine delays and wastage of resources identify negative externalities explore power relations and identify the winners and losers in the globalised trade system with a particular focus on the maritime network *Maritime Mobilities* therefore aims to build a bridge between traditional maritime academic approaches and the mobilities paradigm This volume is of great importance to those who study industrial economics shipping industries and transport geography *China's Backyard* Jason Morris-Jung,2018-05-24 In this multi disciplinary and multi sided volume the authors challenge reductionist and oversimplifying approaches to understanding China s engagement with Southeast Asia Productively viewing these interactions through a e resource lense the editor has transcended disciplinary and area studies divides in order to assemble a dynamic and diverse group of scholars with extensive experience across Southeast Asia and in China all while bringing together perspectives from resource economics policy analysis international relations human geography political ecology history sociology and anthropology The result is an important collection that not only offers empirically detailed studies of Chinese energy and resource investments in Southeast Asia but which attends to the complex and often ambivalent ways in which such investments have become both a source of anxiety and aspiration for different stakeholders in the region **Dynamics of Big Internet Industry Groups and Future Trends** Miguel Gómez-Uranga,Jon Mikel Zabala-Iturriagagoitia,Jon Barrutia,2016-03-31 This book applies a new analytical framework to the study of the evolution of large Internet companies such as Apple Google Microsoft Facebook Amazon and Samsung It sheds light on the dynamics of business groups which are approached as business ecosystems and introduces the concept of Epigenetic Economic Dynamics EED which is defined as the study of the epigenetic dynamics generated as a result of the adaptation of organizations to major changes in their respective environments The book augments the existing literature on evolutionary economic thinking with findings from epigenetics which are proving increasingly useful in analyzing the workings of large organizations It also details the theoretical and conceptual nature of recent work based on evolutionary economics mainly from the perspective of generalized Darwinism resilience and related variety and complements the work conducted on evolutionary economics by applying the analytical framework of EED It makes it easier to forecast future dynamics on the Internet by proving that a sizable number of big business groups are

veering from their initial paths to take unprecedented new directions as a result of competition pressure and as such is a valuable resource for postgraduates and researchers as well as those involved in economics and innovation studies Urban Austerity Sebastian Schipper, Barbara Schöning, 2016-12-19 What started as a mortgage crisis in 2007 and became a global financial and economic crisis in 2008 has transformed into a sovereign debt crisis since 2010 Throughout cities all over Europe have been at the heart of the turmoil in multiple ways indebted homeowners have been evicted masses impoverished public budgets tightened municipal infrastructures privatized and public services downsized In short austerity measures have been implemented In view of the above this book focuses on an issue that affects most people living in urban regions across Europe the idea that fiscal austerity is a necessity that politics cannot avoid no matter how harsh the consequences might be To bring the effects of austerity politics to the forefront the authors of this book expose actual urban problems in their spatiotemporal dimensions discuss regulatory restructurings under a new regime of austerity urbanism and reflect on the role of urban social movements struggling for progressive alternatives Barbara Schöning is Professor for Urban Planning and Director of the Institute for European Urban Studies at the Bauhaus Universität Weimar Germany Sebastian Schipper PhD is a researcher at the Department for Human Geography Goethe University Frankfurt am Main Germany **Instruments of Planning** Rebecca Leshinsky, Crystal Legacy, 2015-08-11 Instruments of Planning Tensions and Challenges for more Equitable and Sustainable Cities critically explores planning's instrumentality to deliver important social and environmental outcomes in neoliberal planning landscapes Because each instrument is unique and may be tailored to its own jurisdictional needs Instruments of Planning is a compendium of case studies from urban regions in Australia Canada the United States and Europe providing readers with a collection that critically challenges the role and potential of planning instruments and instrumentality across a range of contexts Instruments of Planning captures the political institutional and economic challenges that confront planning It examines planning instruments designed to assist with strategic planning and implementation and considers the role that technology plays in unpacking and understanding complexity in planning Written by Rebecca Leshinsky and Crystal Legacy of RMIT University in Melbourne Australia this book fills the gap in planning theory about the instrumentality of planning in the neoliberal urban context It is essential reading for students urban researchers policy analysts and planning practitioners *Port Management* H. Balurghat Raniganj and Hugli Chinsurah using both quantitative and qualitative research methods This volume can be considered as a reference book for Gender Studies Women s Studies Urban Governance Women and Policy Research Gender Development Studies *The Return of the Cold War* J. L. Black, Michael Johns, 2016-04-14 This book examines the crisis in Ukraine tracing its development and analysing the factors which lie behind it It discusses above all how the two sides have engaged in political posturing accusations escalating sanctions and further escalating threats arguing that the ease with which both sides have reverted to a Cold War mentality demonstrates that the Cold War belief systems never really disappeared and that the hopes raised in the aftermath of the collapse of the Soviet Union for a new era in East West relations were misplaced The book pays special attention to the often ignored origins of the crisis within Ukraine itself and the permanent damage caused by the fact that Ukrainians are killing Ukrainians in the eastern parts of the country It also assesses why Cold War belief systems have re emerged so easily and concludes by considering the likely long term ramifications of the crisis arguing that the deep rooted lack of trust makes the possibility of compromise even harder than in the original Cold War Global Finance Sarah Hall, 2017-09-25 The financial crisis of 2007 8 and its aftermath have resulted in the role of money and finance within the global economy becoming the subject of considerable debate in public policy and media circles Global Finance is a timely look at the contemporary international financial environment providing an introduction to this dynamic field of research for students and more advanced researchers Drawing on economic geography economic sociology and critical management Hall offers a broad selection of case studies that ground critical theory in our current financial climate Hall examines and reviews a wide range of critical approaches relating to the role of money and finance in the global economy dividing these approaches into three key sections Global finance and international financial centres Global finance and the real economy Global financial subjects and actors The book takes a uniquely interdisciplinary approach which combined with an international spread of case studies makes this book highly valuable to a wide range of upper level undergraduate courses across the social sciences **Deepening Neoliberalism, Austerity, and Crisis** Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution *Gothic Science Fiction* S. MacArthur, 2015-05-25 Gothic Science Fiction explores the fascinating world of gothic influenced science fiction From Frankenstein to Doctor Who and from H G Wells to Stephen King the book charts the rise of a genre and follows the descent into darkness that consumes it **The Routledge Atlas of South Asian Affairs** Robert W. Bradnock, 2015-10-14 South Asia has developed from a group of newly independent post Colonial states of at most secondary importance to the wider world to its current position as a region of central strategic importance to both global economic development and world peace and stability This Atlas highlights the global significance of South Asia in relation to economic

geopolitical and strategic interests It provides a coherent descriptive and analytical account of the key elements of the complex societies that make up the region and its component countries Illustrated with more than 100 original maps and offering concise entries on key issues the book is structured thematically in these sections Global Context Geographical Environments Historical Evolution of South Asia Key Issues in modern South Asia Economy and Security Designed for use in teaching undergraduate and graduate classes and seminars in geography history economics anthropology international relations political science and the environment as well as regional courses on the South Asia this book is also a comprehensive reference source for libraries and decision makers focusing on South Asia
