## Geography Paper 1 November 2012 Memorandum:

**Big Data Applications in Geography and Planning** Mark Birkin, Graham Clarke, Jonathan Corcoran, Robert Stimson, 2021-05-28 This unique book demonstrates the utility of big data approaches in human geography and planning Offering a carefully curated selection of case studies it reveals how researchers are accessing big data what this data looks like and how such data can offer new and important insights and knowledge America's Moment: Creating Opportunity in the Connected Age Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone **Decolonization and Conflict** Martin Thomas, Gareth Curless, 2017-06-15 Insurgency based irregular warfare typifies armed conflict in the post Cold War age For some years now western and other governments have struggled to contend with ideologically driven guerrilla movements religiously inspired militias and systematic targeting of civilian populations Numerous conflicts of this type are rooted in experiences of empire breakdown Yet few multi empire studies of decolonisation's violence exist Decolonization and Conflict brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945 The contributors analyse multiple forms of colonial counter insurgency from the military engagement of anti colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare Contributors to the collection also show how insurgencies their propaganda and methods of action were inherently transnational and inter connected The resulting study is a vital contribution to our

understanding of contested decolonization It emphasises the global connections at work and reveals the contemporary resonances of both anti colonial insurgencies and the means devised to counter them It is essential reading for students and scholars of empire decolonization and asymmetric warfare

**The United States and the End of British Colonial Rule in Africa, 1941-1968** James P. Hubbard, 2014-01-10 At the end of World War II Britain possessed a vast African empire encompassing nearly 27 million square miles about 10 times larger than Britain itself But by 1965 only three small African territories remained under British control all of which would become independent before the end of 1968 This book examines the swift demise of Britain's African empire looking particularly at the role played by the United States in bringing the empire to an end It reveals how the United States was anti colonial without being actively pro independence concluding that the country's policies and actions combined with its postwar dominance directly and indirectly contributed to the political economic and social transformation of Africa

**Dictators Without Borders** Alexander A. Cooley, John Heathershaw, 2017-02-07 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak corrupt and politically unstable the former Soviet republics of Kazakhstan Kyrgyzstan Tajikistan and Uzbekistan are dismissed as isolated and irrelevant to the outside world But are they This hard hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics politics and security dynamics beyond its borders Yet Central Asia's international activities are mostly hidden from view with disturbing implications for world security Based on years of research and involvement in the region Alexander Cooley and John Heathershaw reveal how business networks elite bank accounts overseas courts third party brokers and Western lawyers connect Central Asia's supposedly isolated leaders with global power centers The authors also uncover widespread Western participation in money laundering bribery foreign lobbying by autocratic governments and the exploiting of legal loopholes within Central Asia Riveting and important this book exposes the global connections of a troubled region that must no longer be ignored

**Saving More Than Seeds** Catherine Phillips, 2016-04-01 Saving More Than Seeds advances understandings of seed people relations with particular focus on seed saving The practice of reusing and exchanging seeds provides foundation for food production and allows humans and seed to adapt together in dynamic socio-natural conditions But the practice and its practitioners are easily taken for granted even as they are threatened by neoliberalisation Combining original ethnographic research with investigation of an evolving corporate seed order this book reveals seed saving not only as it occurs in fields and gardens but also as it associates with genebanking genetic engineering intellectual property rights and agrifood regulations Drawing on diverse social sciences literatures Phillips illustrates ongoing practices of thinking feeling and acting with seeds raising questions about what seed people relations should accomplish and how different ways of relating might be pursued to change collective futures

**Towards Better Work** A. Rossi, A. Luinstra, J. Pickles, 2014-02-12 Globalization of production has created opportunities and challenges for developing

country producers and workers This volume provides solutions oriented approaches for promoting improved working conditions and labour rights in the apparel industry      Exhibiting Madness in Museums Catharine Coleborne,Dolly MacKinnon,2012-06-12 This innovative collection of essays offers a comparative history of independent and institutional collections of psychiatric objects in Australia New Zealand Canada and the United Kingdom Leading scholars in the field investigate collectors collections their display and the reactions to exhibitions of the history of insanity      **Defence**

**Planning and Uncertainty** Stephan Frühling,2014-04-24 How can countries decide what kind of military forces they need if threats are uncertain and history is full of strategic surprises This is a question that is more pertinent than ever as countries across the Asia Pacific are faced with the military and economic rise of China Uncertainty is inherent in defence planning but different types of uncertainty mean that countries need to approach decisions about military force structure in different ways This book examines four different basic frameworks for defence planning and demonstrates how states can make decisions coherently about the structure and posture of their defence forces despite strategic uncertainty It draws on case studies from the United States Australian and New Zealand each of which developed key concepts for their particular circumstances and risk perception in Asia Success as well as failure in developing coherent defence planning frameworks holds lessons for the United States and other countries as they consider how best to structure their military forces for the uncertain challenges of the future      *Managing FDI for Development in Resource-Rich States* L. Barclay,2015-04-28 This book is a timely study in

light of the resurgence of resource nationalism that is currently occurring in several resource rich developing countries It moves away from the traditional explanations for the disappointing economic performance of resource rich developing countries notably those advanced by key researchers      Conflict Areas in the Balkans Pinar Yürür,Arda Özkan,2020-10-27 The situation in the Balkans such as the solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union      *Land Fictions* D. Asher Ghertner,Robert W. Lake,2021-03-15 Land Fictions explores the common storylines narratives and tales of social betterment that justify and enact land as commodity It interrogates global patterns of property formation the dispossessions property markets enact and the popular movements to halt the growing waves of evictions and land grabs This collection brings together original

research on urban rural and peri urban India rapidly urbanizing China and Southeast Asia resource expropriation in Africa and Latin America and the neoliberal urban landscapes of North America and Europe Through a variety of perspectives *Land Fictions* finds resonances between local stories of land s fictional powers and global visions of landed property s imagined power to automatically create value and advance national development Editors D Asher Ghertner and Robert W Lake unpack the dynamics of land commodification across a broad range of political spatial and temporal settings exposing its simultaneously contingent and collective nature The essays advance understanding of the politics of land while also contributing to current debates on the intersections of local and global urban and rural and general and particular Contributors Erik Harms Michael Watts Sai Balakrishnan Brett Christophers David Ferring Sarah Knuth Meghan Morris Benjamin Teresa Mi Shih Michael Levien Michael L Dwyer Heather Whiteside

**Sticky Power** Daniel Haberly, Dariusz Wójcik, 2022-05-02 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Although modern civilization revolves around money the nature of money is paradoxical It is

nothing more than a representation of and medium for decentralized networks of social trust but its production is controlled by highly centralized networks of firms places and governments and there is never enough of it to go around Moreover given that the creation of money as credit is based on expectations money is at its heart an instrument for human agency to change the future However the financial systems that produce money are deeply rooted in the past and perpetuate themselves through history Sticky Power seeks to deepen our understanding of the paradox of money by introducing a novel conceptual lens Global Financial Networks to cast new light on the geography history politics and sociology of finance from the Middle Ages to the global financial crisis and beyond It shows that the power of finance is inherently sticky apparently new innovations such as offshore finance actually date back centuries and global financial networks more broadly have adapted to the rise and fall of empires and the development of new technologies while changing surprisingly little in their basic character or at most changing very slowly Haberly and Wjcik argue that a recognition of the mechanics of this durability calls for a new approach to reforming finance one less reactively focused on regulation and more proactively focused on building new institutional systems with a long term sticky power of their own *Land Grabbing in Africa* Fassil

Demissie,2017-10-02 The sign that Africa is on Sale has been appearing with regular frequency in major newspaper accounts across the world indicating that large amounts expanses of Africa s rich farmlands are being sold to transnational investors usually on long term leases at a rate not seen in decades indeed not since the colonial period Transnational and national economic actors from various business sectors oil and auto mining and forestry food and chemical bioenergy etc are eagerly acquiring or declaring their intention to acquire large areas of land on which to build maintain or extend large scale extractive and agro industrial enterprises to help secure their own food and energy needs into the future This book provides a critical appraisal of the growing phenomenon of land grabbing in Africa Far from being a technical issue associated good governance the problem of land grabbing by transnational corporation and states is a serious threat for the food security of millions of Africans and is undoubtedly one of the great challenges of our time for development on the continent The case studies illustrate that African states are also complicit in the massive land grabbing by actively participating in isolated development while excluding the local communities The case studies reveal key features that characterize how the global land grab plays out in specific localities in Africa This book was published as a special issue of African Identities

Sustainable Railway Futures Becky P.Y. Loo,Claude Comtois,2016-03-03 Revitalizing railways as a major sustainable transport mode in modern societies faces many issues and challenges This in depth overview places the importance of railways in the wider context of comprehensive sustainability which encompasses sustainable development social and economic equity and community livability Some scholars have described the 21st century as a period of renaissance for railways and suggest this transport mode can fulfil people s desire for high mobility with low negative environmental social economic and financial impacts In light of these new expectations for railways in both passenger and freight transport

worldwide this book offers the latest research insights on the renewed interest about railway expansions and their wide ranging environmental socio economic and even political implications      *Northern Communities Working Together* Chris Southcott,2015-05-07 The unique historical economic and social features of the Canadian North pose special challenges for the social economy a sector that includes nonprofits co operatives social enterprises and community economic development organizations *Northern Communities Working Together* highlights the innovative ways in which Northerners are using the social economy to meet their economic social and cultural challenges while increasing local control and capabilities The contributors focus on the special challenges of the North and their impact on the scope of the social economy including analyses of land claim organizations hunter support programs and Indigenous conceptions of the social economy A welcome resource for scholars and policy makers studying any aspect of the Canadian North *Northern Communities Working Together* is a major contribution to the literature on the social economy in Canada      **Project Planning and Management** Louis J. Goodman,2012-12-06      Managing Intractable Conflicts Mensur Akgün,2013 While the Cyprus and Transnistrian problems are just two of the numerous ongoing conflicts around the world we believe that a comparative study of these two cases can provide useful information for actors involved in conflict resolution The Global Political Trends Center GPoT Center of Istanbul K lt r University has been involved with almost all dimensions of the Cyprus conflict since the Center s formation During the past couple of years GPoT Center has organized several rounds of talks between Greek Cypriots and Turkish Cypriots entitled the Heybeliada Talks The meetings have been conducted following the strict Chatham House rules in a retreat on Heybeliada Island close to Istanbul and have become a symbol of GPoT Center s second track activities on Cyprus In addition GPoT Center has focused on several different dimensions of the Cyprus problem through its various publications We have come to understand that a comparative perspective is needed in order to better comprehend the psychology of the conflicting parties and formulate innovative solution oriented approaches GPoT Center is proud to share this study that compares the Cyprus issue with the Transnistrian case deriving lessons from both We would like to present this book to those who are concerned not only with the two case studies but all those who are aware of the potential negative regional and international consequences of leaving these conflicts unresolved Page 7
