The Trans Pacific Partnership, China and India Amitendu Palit, 2014-06-05 The United States and 11 other countries from both sides of the Pacific are currently negotiating the Trans Pacific Partnership TPP The agreement is expected to set new benchmark for international trade through its comprehensive coverage of issues and binding regulations It is expected to eventually mature into a regional trade agreement covering the entire Asia Pacific As of now it does not include China and India the two largest emerging markets and regional economies The TPP has generated controversy for its excessive emphasis on trade issues which have remained unresolved or unaddressed at the WTO due to differences between developed and emerging markets It has also been criticized for adopting a negotiating style reflecting the US regulatory approach to international trade and also as a geo political strategy of the US for supporting its strategic rebalancing towards Asia From both economic and geo political perspectives the TPP has various significant implications for China and India that are examined in the book This book sheds light on how China and India's entries in the TPP are mutually beneficial and how both countries can gain from the TPP by gaining preferential access to large markets and using it as an opportunity for introducing more outward oriented reforms The book also cautions that US must reconcile to the rebalancing of economic power within the grouping that will occur following the entries of China and India Otherwise the TPP and China and India might walk divergent paths and trade and regional integration in Asia Pacific may not ever converge This book will interest anyone who wishes to learn more about the TPP and its future implications and challenges and China and India's roles in global and regional trade

particularly regulatory challenges are being encountered While crowdfunding is not a universal solution for SME finance in a post crisis financial landscape it remains too early to determine whether crowdfunding represents a large scale transformation of the early stage risk capital market or a minor addition to it This book was originally published as a special issue of Venture Capital      October 2019 Monthly Current Affairs with MCQs for Competitive Exams Disha

Children, Human Rights and Temporary Labour Migration Rasika Jayasuriya,2021-06-22 This book focuses on the neglected yet critical issue of how the global migration of millions of parents as low waged migrant workers impacts the

rights of their children under international human rights law The work provides a systematic analysis and critique of how the restrictive features of policies governing temporary labour migration interfere with provisions of the Convention on the Rights of the Child that protect the child parent relationship and parental role in children s lives Combining social and legal research it identifies both potential harms to children s well being caused by prolonged child parent separation and State duties to protect this relationship which is deliberately disrupted by temporary labour migration policies The book boldly argues that States benefitting from the labour of migrant workers share responsibility under international human rights law to mitigate harms to the children of these workers including by supporting effective measures to maintain transnational child parent relationships It identifies measures to incorporate children s best interests into temporary labour migration policies offering ways to reduce interferences with children s family rights This book fills a gap that emerges at the intersection of child rights studies migration research and existing literature on the purported nexus between labour migration and international development It will be a valuable resource for academics researchers and policymakers working in these areas The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003028000> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
