Fundamentalism and Education in the Scopes Era A. Laats, 2010-05-24 This book takes a new look at one of the most contentious periods in American history The battles over schools that surrounded the famous Scopes monkey trial in 1925 were about much more than evolution Fundamentalists fought to maintain cultural control of education As this book reveals for the first time the successes and the failures of these fundamentalist campaigns transformed both the fundamentalist movement and the nature of education in America In turn those transformations determined many of the positions of the culture wars that raged throughout the twentieth century Halford Mackinder Brian W. Extraterritoriality in Comparative Perspective Hannah Buxbaum, 2025-01-20 Extraterritoriality is often understood as an exceptional sometimes even illegitimate form of state lawmaking yet it is pervasive in contemporary practice Countries around the world rely on extraterritorial regulation to protect local markets in areas including competition law and data privacy It is also recognized as a useful strategy to promote international human rights and to address shared challenges as diverse as transnational crime tax base erosion and climate change The normalization of extraterritoriality as a legal technique however has by no means resolved longstanding debates about its place in the international legal order Containing in depth studies of fifteen legal systems this volume provides a critical comparative perspective on those debates
