**The Legality and Accountability of Autonomous Weapon Systems** Afonso Seixas-Nunes, 2022-05-19 By adopting a multi disciplinary approach this book provides a comprehensive analysis of the legality of the use of autonomous weapons systems under international law It examines different arguments presented by States roboticists and scholars to demonstrate the challenges such systems will create for the laws of war This study examines how technology of warfare seeks to increase the dissociation of risk and communication between weapons and their human operators Furthermore it explains how algorithms might give rise to errors on the battlefield that cannot be directly attributed to human operators Against this backdrop Dr Seixas Nunes examines three distinct legal frameworks the distinction between the legality of weapons and the laws of targeting different mechanisms of individual accountability and the importance of recovering the category of *dolus eventualis* for programmers and technicians and finally State responsibility for violations of the laws of war caused by weapons software errors

**The Middle and Upper Paleolithic Archeology of the Levant and Beyond** Yoshihiro Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern Humans which took place between November 30 and December 6 2014 in Hokkaido Japan Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia

**Land Fictions** D. Asher Ghertner, Robert W. Lake, 2021-03-15 Land Fictions explores the common storylines narratives and tales of social betterment that justify and enact land as commodity It interrogates global patterns of property formation the dispossessions property markets enact and the popular movements to halt the growing waves of evictions and land grabs This collection brings together original research on urban rural and peri urban India rapidly urbanizing China and Southeast Asia resource expropriation in Africa and Latin America and the neoliberal urban landscapes of North America and Europe Through a variety of perspectives Land Fictions finds resonances between local stories of land s fictional powers and global visions of landed property s imagined power to automatically create value and advance national development Editors D Asher Ghertner and Robert W Lake unpack the dynamics of land commodification across a broad range of political spatial and temporal

settings exposing its simultaneously contingent and collective nature The essays advance understanding of the politics of land while also contributing to current debates on the intersections of local and global urban and rural and general and particular Contributors Erik Harms Michael Watts Sai Balakrishnan Brett Christophers David Ferring Sarah Knuth Meghan Morris Benjamin Teresa Mi Shih Michael Levien Michael L Dwyer Heather Whiteside **Big Data Applications in**

**Geography and Planning** Mark Birkin, Graham Clarke, Jonathan Corcoran, Robert Stimson, 2021-05-28 This unique book demonstrates the utility of big data approaches in human geography and planning Offering a carefully curated selection of case studies it reveals how researchers are accessing big data what this data looks like and how such data can offer new and important insights and knowledge **Sand, Snow, and Stardust** Gretchen Heefner, 2025-05-05 A vivid tour of US military

efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country's status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America's planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might Sand Snow and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely *Washington at the Plow* Bruce A. Ragsdale, 2021-10-12 George Washington spent most of

his time farming often employing experimental methods Washington saw slave powered scientific agriculture as the key to the nation's prosperity Bruce Ragsdale argues that it was slave labor's inefficiency as much as its inhumanity that finally convinced Washington to emancipate the men and women bonded to him **India China** L.H.M. Ling, Adriana Erthal Abdenur, Payal Banerjee, Nimmi Kurian, Mahendra P. Lama, Li Bo, 2021-03-11 Challenging the Westphalian view of international relations which focuses on the sovereignty of states and the inevitable potential for conflict the authors from the Borderlands Study Group reconceive borders as capillaries enabling the flow of material cultural and social benefits through

local communities nation states and entire regions By emphasizing local agency and regional interdependencies this metaphor reconfigures current narratives about the China India border and opens a new perspective on the long history of the Silk Roads the modern BCIM Initiative and dam construction along the Nu River in China and the Teesta River in India Together the authors show that positive interaction among people on both sides of a border generates larger cross border communities which can pressure for cooperation and development India China offers the hope that people divided by arbitrary geo political boundaries can circumvent race gender class religion and other social barriers to form more inclusive institutions and forms of governance **PLATE: Product Lifetimes And The Environment** C.A. Bakker,R.

Mugge,2017-11-14 Product lifetimes are critical for the circular economy resource efficiency waste reduction and low carbon strategies for sustainability and are therefore of interest to academics from many different disciplines as well as original equipment manufacturers OEMs and other stakeholders The challenges related to product lifetimes must be tackled from multiple perspectives making the sharing of knowledge and expertise from different disciplines particularly important This book presents papers from the second Product Lifetime and the Environment PLATE conference held in Delft the Netherlands in November 2017 The conference originated from the desire to bring together academic researchers working in the field of sustainability to benefit from each other s knowledge and further advance the field The book includes the 88 full papers delivered at the conference grouped according to the following 7 conference themes design for product longevity product lifetime optimization cultural perspectives on the throwaway society circular economy and product lifetimes business opportunities economic implications and marketing strategies consumer influences on product lifetimes and policy regulation and legislation The book will be of interest to all those concerned with sustainable consumption circular economy and resource efficiency **Yearbook of International Organizations 2014-2015 (Volume 4)** Union Of International

Davis,2021-04-06 After a cascade of failures left residents of Flint Michigan without a reliable and affordable supply of safe drinking water citizens spent years demanding action from their city and state officials Complaints from the city s predominantly African American residents were ignored until independent

researchers confirmed dangerously elevated blood lead levels among Flint children and in the city's tap water. Despite a 2017 federal court ruling in favor of Flint residents who had demanded mitigation, those efforts have been incomplete at best. Assessing the challenges that community groups faced in their attempts to advocate for improved living conditions, *Tainted Tap* offers a rich analysis of conditions and constraints that created the Flint water crisis. Katrinell Davis contextualizes the crisis in Flint's long and troubled history of delivering essential services, the consequences of regional water management politics, and other forms of systemic neglect that impacted the working class community's health and well-being. Using ethnographic and empirical evidence from a range of sources, Davis also sheds light on the forms of community action that have brought needed changes to this underserved community.

**Livable Streets 2.0** Bruce Appleyard, 2021-03-22 *Livable Streets 2.0* offers a thorough examination of the struggle between automobiles, residents, pedestrians, and other users of streets, along with evidence-based practical strategies for redesigning city street networks that support urban livability. In 1981, when Donald Appleyard's *Livable Streets* was published, it was globally recognized as a groundbreaking work, one of the most influential urban design books of its time. Unfortunately, he was killed a year later by a speeding drunk driver. This latest update, *Livable Streets 2.0*, revisited by his son Bruce, updates the topic with the latest research, new case studies, and best human-centered practices for creating more livable streets for all. It is essential reading for those who influence future directions in city and transportation planning, urban design, and community regeneration and placemaking. It incorporates the most current empirical research on urban transportation and land use practices that support the need for more livable communities. Includes recent case studies from around the world on successful projects, campaigns, programs, and other efforts. Contains new coverage of vulnerable populations.

*Structural Transformation and Economic Development* Banji Oyelaran-Oyeyinka, Kaushalesh Lal, 2016-09-13 This book examines long-term structural changes and the broad impact on economic development in regional comparative perspectives. The book analyzes data across Africa, Asia, and Latin America. It looks at key variables of productivity, growth, industrialization, poverty, urbanization, and employment. This book is concerned with understanding structural change dynamics and how it affects job creation, living standards, and the efficiency of productive cities through manufacturing productivity growth that benefits the majority of citizens. With empirical evidence from a selected number of developing countries including China, India, Brazil, Nigeria, and South Africa, the book attempts to present the considerable structural changes of these countries over the last few decades. It highlights that growth without the expected job creation is one of the distinct features of growth in emerging and developing countries. It suggests that countries may well record economic growth, whether through within-sector productivity increase or through structural change, but this may not necessarily lead to employment, an important concern for long-term development.

Sustainable Peace in Northeast Asia Yong-Shik Lee, 2023-09-05 *Sustainable Peace in Northeast Asia* examines the causes of lasting and complex tensions in the region from underlying political, historical, military, and economic perspectives, discusses their

historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the dynamics that their engagement has created Both South Korea and North Korea have sought reunification of the Korean peninsula which will have a substantial impact on the region The book examines its justification feasibility and effects for the region The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia A relatively small country in terms of its population Mongolia has rarely been examined in this context Sustainable Peace in Northeast Asia makes a fresh assessment of its potential role *Congressional Record* United States.
