O'Leary/Dennis S. O'Leary, 2016-02-04 Across the span of more than forty years Raphael Dorman O'Leary a professor of English rhetoric and English literature taught his students at the University of Kansas to think straight

to put sinew into their sentences and to embrace the magnificent literary treasures of their mother tongue The English Professor by authors Margaret R O Leary and Dennis S O Leary offers a narrative of the life work and times of a revered Midwestern university English teacher This memoir narrates how the professor born in 1866 was raised on a Kansas farm in the post bellum era Like his father before him he was committed to a life of learning and teaching His colleagues knew him for his unpretentious exterior honesty and integrity and his flashing anger at cheapness vulgarity pretense and above all charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of The English Professor It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States Ghosts of the Somme Jonathan Evershed, 2018-05-30 Once assumed to be a driver or even cause of conflict commemoration during Ireland's Decade of Centenaries came to occupy a central place in peacebuilding efforts The inclusive and cross communal reorientation of commemoration particularly of the First World War has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland In this study Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history memory and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them Drawing on two years of ethnographic fieldwork conducted in Belfast Evershed explores Ulster Loyalist commemoration of the Battle of the Somme its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation The China Order Fei-Ling Wang, 2017-08-07 What does the rise of China represent and how should the international community respond With a holistic rereading of Chinese longue durée history Fei Ling Wang provides a simple but powerful framework for understanding the nature of persistent and rising Chinese power and its implications for the current global order He argues that the Chinese ideation and tradition of political governance and world order the China Order is based on an imperial state of Confucian Legalism as historically exemplified by the Qin Han polity Claiming a Mandate of Heaven to unify and govern the whole known world or tianxia all under heaven

the China Order dominated Eastern Eurasia as a world empire for more than two millennia until the late nineteenth century. Since 1949 the People's Republic of China has been a reincarnated Qin Han polity without the traditional China Order, finding itself stuck in the endless struggle against the current world order and the ever-changing Chinese society for its regime survival and security. Wang also offers new discoveries and assessments about the true golden eras of Chinese civilization, explains the great East-West divergence between China and Europe, and analyzes the China Dream that drives much of current Chinese foreign policy.
