deep and timely account of how American newspapers were produced and distributed on paper Winner of the Best Book in Canadian Business History by the Canadian Business History Association Popular assessments of printed newspapers have become so grim that some have taken to calling them dead tree media as a way of invoking the medium's imminent demise There is a literal truth hidden in this dismissive expression printed newspapers really are material goods made from trees

And throughout the twentieth century the overwhelming majority of trees cut down in the service of printing newspapers in the United States came from Canada In *Dead Tree Media* Michael Stamm reveals the international history of the commodity chains connecting Canadian trees and US readers Drawing on newly available corporate documents and research in archives across North America Stamm offers a sophisticated rethinking of the material history of the printed newspaper Tracing its industrial production from the forest to the newsstand he provides an account of the obscure and often hidden labor involved in this manufacturing process by showing how it was driven by not only publishers and journalists but also lumberjacks paper mill workers policymakers chemists and urban and regional planners Stamm describes the 1911 shift in tariff policy that gave US publishers duty free access to Canadian newsprint providing a tremendous boost to Canadian paper manufacturers and a significant subsidy to American newspaper publishers He also explains how Canada attracted massive American foreign investment in paper mills around the same time that US publishers were able to gain greater access to Canada's vast spruce forests Focusing particularly on the *Chicago Tribune* Stamm provides a new history of the rise and fall of both the mass circulation printed newspaper and the particular kind of corporation in the newspaper business that had shaped many aspects of the cultural political and even physical landscape of North America For those seeking to understand the travails of the contemporary newspaper business *Dead Tree Media* is essential reading

*State against Civil Society* Cameron Ross, 2017-10-02 Over the period December 2011

July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions. These demonstrations came as a great shock to the Russian political establishment. After decades of passive acceptance of the status quo it appeared that civil society was at last awakening. The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia, Egypt and Libya. However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously. President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors. This book examines the reasons for the rise and fall of the mass protests in the Russian Federation. Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement, the non-systemic opposition, its strengths and its weaknesses. A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions. This book was published as a special issue of *Europe Asia Studies*.      *America's Moment: Creating Opportunity in the Connected Age* Rework America, 2015-06-15 It is time for a new conversation. Amid the biggest economic transformation in a century, the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life. Yet today's economic arguments seem stuck. We need a new vision of a hopeful future and a new action agenda. So many Americans are uncertain about the future. How can there be so many paths to opportunity with so few people traveling them? As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next. We have been here before. A hundred years ago America experienced the greatest economic transformation and technological revolution in its history. The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again. It is a time of tremendous change but also of tremendous possibility. Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions. In *America's Moment* they suggest a practical agenda for an exciting future. It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities: preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no-collar working world, neither blue collar nor white collar. Set against the history of how Americans succeeded once before in remaking their country, *America's Moment* is about the future. It describes how the same forces of change, technology and a networked world can become tools that can open opportunity to everyone.      Education for Sustainable Development and Disaster Risk Reduction Rajib Shaw, Yukihiko Oikawa, 2014-08-06 Education for Sustainable Development (ESD) and Disaster Risk Reduction Education (DRRE) have overlapping areas of concern focusing on strengthening the link to local communities. In reality there is significant synergy in ESD and disaster risk reduction (DRR). Both concepts urge looking at the communities; both focus on behavior changes and both call for linking knowledge to action.

The Decade of Education for Sustainable Development DESD ends in 2014 and the Hyogo Framework for Action HFA ends in 2015 Therefore at this junction it is important to review the progress made over the past 10 years and to suggest future synergy options This book is the first attempt to review these two emerging fields and to provide input to the future direction of education The book has 11 chapters drawing lessons mainly from Japan and discussing their implications for the world The first four chapters provide an overview of the ESD DRR linkage ESD and its evolution DRRE and Climate Change Education These are followed by case studies from ESD practices in Japan in schools universities and communities The primary target groups for this book are students and researchers in the fields of environment disaster risk reduction and climate change studies The book provides them with a good idea of the current research trends in the field and furnishes basic knowledge about these vital topics Another target group comprises practitioners and policy makers who will be able to apply the knowledge collected here to establishing policy and making decisions

*Asymmetric Crisis in Europe and Possible Futures* Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics

*An Endogenous Theory of Property Rights* Peter Ho, 2018-10-15 From a neo liberal neo classical paradigm secure formal and private property rights are crucial to fostering sustained development Institutions that fail to respond to shifting

socio economic opportunities are thus forced to make new arrangements The enigma is posed by developments on the ground Why would the removal of authoritarian institutions during the Arab Spring or Iraq War not increase market efficiency but rather cause the reverse while China and India despite persisting insecure informal and common institutions featured sustained growth This collection posits that understanding these paradoxes requires a refocusing from form to function detached from normative assumptions about institutional appearance In so doing three things are accomplished First starting from case studies on land it is ascertained that the argument can be meaningfully extended to labour capital and beyond Second the argument validates the Credibility Thesis that is once institutions persist they fulfil a function Third the collection studies development broadly construed by including the modes of production and beyond the rural and urban the developed and developing This is why it reviews property rights from China and India to Turkey Mexico and Malaysia covering issues such as customary rights and privatization mining and pastoralism dam building and irrigation but also state owned banks trade unions and notaries This book was originally published as a special issue of The Journal of Peasant Studies
