

Chapter Prerequisite Skills

PREREQUISITE SKILLS QUIZ

Preparing for Success To prepare for success in this chapter, test your knowledge of these concepts and skills. You may want to look at the pages referred to in case for additional review.

1. **Variables** Label the given, the least, and the greatest for the expression x^2 .

Write the mixed number as an improper fraction. $\frac{7}{8}$ $\frac{11}{12}$

$$\frac{1}{2} \cdot \frac{1}{3} \quad \frac{1}{4} \cdot \frac{1}{5} \quad \frac{1}{6} \cdot \frac{1}{7}$$

Find the product. $\frac{1}{2} \cdot \frac{1}{3}$

$$\frac{1}{4} \cdot \frac{1}{5} \quad \frac{1}{6} \cdot \frac{1}{7} \quad \frac{1}{8} \cdot \frac{1}{9}$$

Write the given in words and as a repeated multiplication. Then evaluate the power. 10^2

$$10^2 \quad 10^3 \quad 10^4 \quad 10^5$$

NOTETAKING STRATEGIES

RECORDING THE PROCESS When solving equations in class, be sure to write a verbal description next to each step in a calculation. Then you can refer to the examples when solving similar problems.

Calculation step

$$\begin{aligned} -5x - 3 &= -23 \\ -5x - 3 + 3 &= -23 + 3 \\ -5x &= -20 \\ \frac{-5x}{-5} &= \frac{-20}{-5} \\ x &= 4 \end{aligned}$$

Verbal description

Write original equation.
Add 3 to each side.
Simplify.
Divide each side by -5 .
Simplify.

The strategy above will be helpful in Lesson 4.5 when you are simplifying variable expressions with powers.

4.1 Finding Prime Numbers

Goal

Identify prime and composite numbers using divisibility.

Materials

• pencil
• paper

A **prime number** is a whole number that is greater than 1 and has exactly two whole number factors, 1 and itself. A **composite number** is a whole number that is greater than 1 and has more than two whole number factors. A **multiple** of a number is the product of the number and any nonzero whole number.

Investigate

Use patterns to determine if a number is prime or composite.

- Write the whole numbers from 2 to 60 in rows of 6 as shown.
- Start with the number 2. Circle it and cross out every multiple of 2 after 2. (The first few multiples of 2 have been crossed out for you.)
- Move to the next number that is not crossed out. Circle it and cross out all other multiples of that number.
- Repeat step 3 until every number is either circled or crossed out.

2	3	4	5	6
2	3	4	5	6
7	8	9	10	11
12	13	14	15	16
17	18	19	20	21
22	23	24	25	26
27	28	29	30	31
32	33	34	35	36
37	38	39	40	41
42	43	44	45	46
47	48	49	50	51
52	53	54	55	56
57	58	59	60	61

Draw Conclusions

- Observing** What can you say about the numbers that have been crossed out? What can you say about the numbers that have been circled? Use the words *prime* and *composite* in your answers.
- Critical Thinking** All the numbers in the sixth column are crossed out because they are all multiples of 5. Explain why all the numbers in the second column (except for 2), in the third column (except for 3), and in the fourth column are crossed out.
- Predict** Suppose you repeated the activity but arranged the numbers in rows of 10 instead of 6. Predict which columns would contain only crossed-out numbers. Then check your prediction.

Tyranny of the Textbook Beverlee Jobrack, 2011-12-23

Educational reforms and standards have been a topic of public debate for decades with the latest go round being the State Common Core Curriculum Standards But time and again those reforms have failed and each set of standards no matter how new and different has had little impact on improving student achievement Why The textbooks Textbooks sell based on design and superficial features not because they are based on the latest research on how children learn and how well they promote student achievement In Tyranny of the Textbook Beverlee Jobrack retired from educational publishing sheds light on why this happens She gives an engaging and fascinating look behind the scenes of how K 12 textbooks are developed written adopted and sold And perhaps most importantly she clearly spells out how the system can change so that reforms and standards have a shot at finally being effective Did you know Reform efforts have focused on writing and rewriting standards and tests but these rarely have any effect on the core curriculum that is published School districts and states don't use effectiveness as a criterion for evaluating and purchasing textbooks Publishers don't offer textbooks with better content or the latest teaching methods because teachers don't want textbooks that require them to change their practices Teachers report that they don't rely on a textbook in their class but research shows that they do Three companies publish 75 percent of the K 12 educational materials Those three companies are producing similar programs with the same instructional strategies none of which require teachers to change their practices significantly Publishers write textbooks for California and Texas All of the other

markets have to make do with books only superficially adjusted for their states **Large-Scale Studies in Mathematics Education** James A. Middleton, Jinfa Cai, Stephen Hwang, 2015-05-05 In recent years funding agencies like the Institute of Educational Sciences and the National Science Foundation have increasingly emphasized large scale studies with experimental and quasi experimental designs looking for objective truths Educational researchers have recently begun to use large scale studies to understand what really works from developing interventions to validation studies of the intervention and then to efficacy studies and the final scale up for large implementation of an intervention Moreover modeling student learning developmentally taking into account cohort factors issues of socioeconomics local political context and the presence or absence of interventions requires the use of large data sets wherein these variables can be sampled adequately and inferences made Inroads in quantitative methods have been made in the psychometric and sociometric literatures but these methods are not yet common knowledge in the mathematics education community In fact currently there is no volume devoted to discussion of issues related to large scale studies and to report findings from them This volume is unique as it directly discusses methodological issue in large scale studies and reports empirical data from large scale studies
