90 Days Conrad Jones, 2013-10-21 This concise guide tells you how to write a novel by using a systematic approach to writing. This guide is written by an author not a guru. A simple step by step breakdown of how to plan each day. No fillers and no theory just the hard facts in a concise guide. There are many guides about writing novels on the market but how many of them are written by prolific published authors? The answer is not many. How can anyone write a guide unless they have been through the writing process many times before? The simple answer to this question is they can't because they cannot feed on their own actual experiences to help another writer to avoid the mistakes and pitfalls. Most guides regurgitate information which they have picked up from creative writing books or sites. How can they give you advice when they have never sat down and focused on creating a novel which will sell many times over? Writing a novel is the same as any other task we undertake as individuals. We have to learn how to do it in order to do it well. When you first learn to drive you need lessons. No one walks into the kitchen and creates a gourmet dish on their first attempt. If you want a system to apply to writing a book then you need to take advice from an author who has taken years to develop the process via experience. **How To Write A Script**

in 30 Days Ken Davenport, 2017-08-31 All of the greatest creators from Beethoven to Edison had something in common. They didn't just create stuff. They created a ton of stuff. That's why I'm a big believer that producers should produce more directors should direct more and of course writers should write more. The funny thing is too many writers I know just can't finish a script. Maybe they have ideas and maybe they write a few scenes but they don't get to the end. Or maybe they've never written anything and are too afraid to start. That's why I wrote this book which guarantees you'll have a finished script whether or not you've ever written anything before. That's right. In only one month you can go from a blank page to a completed script ready to be staged. Just imagine you'll have a full script in your hands or a Producer's hands by the end of this month if you start today. So what are you waiting for? *How To Lose Belly Bloat In 5 Days* Trennesse

failures and a path to success. Piotr Konopka, This book is my story It s about success the road to it there s a bit of theory But mostly it s about practice how in 158 days the title 5 months and five days I changed my life and lost 50 5 kg A hilarious picture of Pawel Jaronski is circulating the web a doctor diagnosing a patient saying You are fat Please don t be fat The patient thanks him and the consultation is over Much weight loss advice looks similar Seemingly simple advice that only looks good on paper Or in a world of superheroes endowed with superpowers This is not a book for superheroes Nor is it a book written by a superhero It is a story about how to win despite stumbles and failures How to learn lessons How to pick yourself up after successive falls You will only find advice that works in everyday life You will get practical advice tailored to the busy lifestyles of today s world Based on factual foundations and the knowledge of experts in many fields but is complemented by the true story of a man who has faced himself Or that s what superheroism is This book is a record of my story I won t describe my life but I will discuss almost four years It will be about success but also the road to it The first part concerns the period from 23 August 2019 to 18 July 2022 That is 1 061 days which can be seen as a period of failure Or to paraphrase Thomas Edison it was a period in which I discovered 1061 ways to lose weight that didn t work The second part was the 158 days actually the eponymous five months and five days during which using the experiences I had gathered I changed my life and lost 50 5 kg To lose weight I had to suffer from depression and stage III obesity Sometimes people with depression say they woke up driving a car in a head on collision Me I feel like I woke up in the vicinity of a coffin with a box of pizza in my hand The fact that I have lost and continue to lose weight is the result of the sum of my experiences not a magical transformation This is only a book for some I am not a doctor although doctors do appear in it This is not a book to diagnose endocrine disorders or other illnesses see a doctor about those I will not help you all But if at least a few people benefit from my story I will still be happy The fact that I have a circle of people supporting me is lucky Some people are not so fortunate But it s worthwhile then to seek help from professionals psychotherapists psychologists who can help in such a situation But if my experiences are to help at least one person it is worth sharing such knowledge That is why this book was written
