Abundance thinking is a belief that there is always more than enough for everyone. If you think small scarcity thinking understand that it's not your fault. You've been taught since birth that there is not enough. There isn't enough water money clean air etc. But the truth is there is abundance in the world so there is not just enough to go around there is an overflow of enough to go around. Thinking Small Scarcity Mindset When you think small you believe that no matter how hard you work there will never be enough. Due to this idea of scarcity you act like you're in competition with the world for your every breath. You often tend to hoard things money don't want to help others because they might take your ideas and you often develop a chip on your shoulder about your competition. You may even be terrified of being replaced in all aspects of your life whether it's work or your personal life. A person with a scarcity mindset tends to unrealistically portray the role of either a bully or a victim causing a win lose scenario. Win win is not a concept they can reconcile. As opposed to the first mode of living scarcity mindset the abundance mindset does exist. An abundance mindset is based on the conviction that there is more than enough for everyone. Thinking abundantly is not just about money but it embraces the idea of life as a whole where there are enough opportunities for all and infinite sources of wealth and goodness. With this mindset there is everything to gain and nothing much to lose by giving money away and using it simply because abundance will cause money to find its way back to you what you lose you can gain back and more. This mode of living relies greatly on faith and trust in the abundance of life. A person with an abundance mindset gets to live a more satisfying and fulfilling life. They feel more secure relaxed and happy in the knowledge that there is simply more than enough. They approach life with more excitement amidst challenges and they employ the use of their power and confidence in their ability to attract abundance creating more opportunities as well as help and motivate others. Given the two contrasting mindsets are you more aware of where you stand. If you want to build an abundance mindset What are the effective ways to do just that
