Bombardier CL 600 2B19 N431CA crashed during takeoff from Blue Grass Airport Lexington Kentucky The flight crew was  
instructed to take off from runway 22 but instead lined up the airplane on runway 26 and began the takeoff roll The airplane  
ran off the end of the runway and impacted the airport perimeter fence trees and terrain The captain flight attendant and 47  
passengers were killed and the first officer received serious injuries The airplane was destroyed by impact forces and  
postcrash fire The flight was operating under the provisions of 14 Code of Federal Regulations Part 121 and was en route to  
Hartsfield Jackson Atlanta International Airport Atlanta Georgia Night visual meteorological conditions prevailed at the time  
of the accident The National Transportation Safety Board determines that the probable cause of this accident was the flight  
crewmembers failure to use available cues and aids to identify the airplane s location on the airport surface during taxi and  
their failure to cross check and verify that the airplane was on the correct runway before takeoff Contributing to the accident  
were the flight crew s nonpertinent conversation during taxi which resulted in a loss of positional awareness and the Federal  
Aviation Administration s FAA failure to require that all runway crossings be authorized only by specific air traffic control  
ATC clearances The safety issues discussed in this report focus on the need for 1 improved flight deck procedures 2 the  
implementation of cockpit moving map displays or cockpit runway alerting systems 3 improved airport surface marking  
standards and 4 ATC policy changes in the areas of taxi and takeoff clearances and task prioritization Safety  
recommendations concerning these issues are addressed to the FAA P x      **Pilot Salary Survey** ,1988      A Dictionary of
