seem self managed aren't normal. In fact they are terribly counterintuitive but terribly simple as it turns out. As a follow up to The Referral Engine this is about more than just establishing leads it's about building a fully alive business that attracts customers for life.

The \$100 Startup Chris Guillebeau, 2012-05-08 Lead a life of adventure, meaning and purpose and earn a good living. Thoughtful, funny and compulsively readable, this guide shows how ordinary people can build solid livings with independence and purpose on their own terms. Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project*, still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he's never held a real job or earned a regular paycheck. Rather, he has a special genius for turning ideas into income and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning 50,000 or more from a modest investment in many cases 100 or less and focused on the 50 most intriguing case studies. In nearly all cases, people with no

special skills discovered aspects of their personal passions that could be monetized and were able to restructure their lives in ways that gave them greater freedom and fulfillment Here finally distilled into one easy to use guide are the most valuable lessons from those who ve learned how to turn what they do into a gateway to self fulfillment It s all about finding the intersection between your expertise even if you don t consider it such and what other people will pay for You don t need an MBA a business plan or even employees All you need is a product or service that springs from what you love to do anyway people willing to pay and a way to get paid Not content to talk in generalities Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running what these individuals did in the first weeks and months to generate significant cash some of the key mistakes they made along the way and the crucial insights that made the business stick Among Chris s key principles If you re good at one thing you re probably good at something else never teach a man to fish sell him the fish instead and in the battle between planning and action action wins In ancient times people who were dissatisfied with their lives dreamed of finding magic lamps buried treasure or streets paved with gold Today we know that it s up to us to change our lives And the best part is if we change our own life we can help others change theirs This remarkable book will start you on your way
