The Great Perhaps Burton F.

Porter, 2015-04-16 God created man in his own image but did man perhaps return the compliment The question of God's existence has been a pivotal issue for every civilization Those with faith in God want assurance that their belief is justified and atheists want confirmation that God is nowhere to be found When we reflect on religion we want to know the reasons for belief in God or whether belief is only a comforting delusion In an age of science will religion persist or will it be edged out of our consciousness and become a historical curiosity Burton Porter approaches the notion of God in an open yet critical way examining the argumentation used by centuries of human society to support or reject the existence of God With minimum assumptions and maximum objectivity Porter debates whether the religious view does in fact diagram reality He examines the roles that God and religion have played in the ethics art and actions of many diverse cultures to conclude that at the very least the consideration of the existence of a higher power is fundamental to us all
