

PDT

VS

PST

Due to the fact that the Earth is elliptical, while the sun is rising in one part of the planet, there's sunset in a different one, and this leads to the creation of timezones. We've got accustomed to adjusting our clocks when we arrive in a different country but the names of timezones still create confusion.

DEFINITION

PDT stands for **Pacific Daylight Time**, and it's used during the **summer**.

DEFINITION

PST, that stands for **Pacific Standard Time**, is used during the **winter**.
