Ford,2020-07-09 The story of the P 51B Mustang aircraft from its development prior to the American entry into the war through to D Day in June 1944 During World War II the United States Army Air Corps was led by a cadre of officers who believed implicitly that military aviation particularly fast heavy bombers at high altitude would be able to destroy strategic enemy targets during daylight with minimal losses However by 1942 the Flying Fortress was proving vulnerable to Luftwaffe fighters This title charts the United States Army Air Force s struggle to develop a Long Range Escort which would enable them to achieve the Combined Bomber Objectives and gain mastery of the skies over the Third Reich The commitment of the USAAF to the Mediterranean and European theatres saw an increasingly desperate need to find a fighter escort which reached crisis point in 1943 as losses suffered in the Tidal Wave offensive and Schweinfurt Regensburg Munster raids emphasised the mounting strength of the Luftwaffe The USAAF leaders increasingly accepted the probability of bomber losses and the deployment of the P 51B Mustang solved the problem of Germany s layered defence strategy as Luftwaffe fighters had been avoiding the P 47 Thunderbolt and P 38 Lightning escort fighters by concentrating their attacks beyond the range of the Thunderbolt and Lightning The P 51B duly emerged as the The Bastard Stepchild that the USAAF Material Division did not want becoming the key Long Range Escort fighter alongside the P 38 and P 47 that defeated the Luftwaffe prior to D Day As well as the P 51B s history this title explores the technical improvements made to each of these fighters as well as the operational leadership and technical development of the Luftwaffe they fought against **Reference Librarianship** Peter Sprenkle,Charles R Anderson,2013-04-03 A daily diary of actual interactions between a reference desk librarian and his patrons Reference

Librarianship documents a year in the life of a young librarian working in the trenches at a library in the Midwestern United States. This one of a kind book provides a daily diary of every librarian patron transaction no matter how mundane or absurd to demonstrate not only how advances in technology have affected the reference librarian's job but how the public's expectations have changed as well. The book also includes observations by a now retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades the job of reference librarian has seen many changes. But in many ways reference desk work hasn't changed a bit with its mix of odd, humorous, routine and ridiculous requests that capture what it's like to deal with patrons day after day. Reference Librarianship paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners and reminds library administrators of what life was like on the front lines. A sampling of the daily transactions documented in Reference Librarianship: Monday, May 19, 2003. Pencil pencil network down. I tell people that I can't sign them up for an Internet terminal because the network is down and they just stand there staring into space. One of them asks for three days worth of newspapers, microfiche machine explanation. Sorry Sir, the network is still down. Multiply by twenty and insert randomly into the remainder of the day. Magic tricks but he pretty much knew where they were. One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise like a crystal waterfall landing on soil. Books on prostitution, you know, whores. Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious with good reason. Math puzzles. Okay, I show him the books. Just math. Certainly, I show him the books. I need them in Spanish. Grrr. Reference Librarianship is an enlightening, educational and entertaining look at the real world of reference desk work. It's an essential read for reference librarians, both public and academic, library administrators and library school students as well as anyone who works with the public.
