GE Café 30" Free-Standing Range with Baking Drawer

Dimensions and Installation Information (in inches)

Electrical Requirements: 120v, 60Hz, 15A

Effective January 1, 1996, the National Electrical Code requires that new construction (not existing) utilize a 4-conductor connection to an electric range.

Receptacle Locations: Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

Note: 30" ranges conform to U.L. requirements for 0" spacing from adjacent walls below countertops. To reduce possibility of scorching walls, engineering recommends a minimum of 1-1/2" spacing to allow for possible extended, high-heat, no-load heating element operation.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.

For answers to your Monogram® GE Profile® or GE® appliance questions, visit our website at geappliances.com or call GE Answer Center® service, 800.626.2000.

imagination at work

Do not use this range with a hot surface. Do not use it for cooking or warming. Do not use it for drying or for any other purpose.

Specification Revised 10/10
