

LEARNING OBJECTIVES Pupils will be taught to...	SUGGESTED TEACHING AND LEARNING ACTIVITIES	LEARNING OUTCOMES Pupils will be able to...	FOCUS OF NOTE	VOCABULARY
Add numbers to the total of 100 (100)	Pupils add any two to four numbers using • number sentences (horizontal form) $47\ 329 + 600 =$ • vertical form $\begin{array}{r} 5\ 3\ 4\ 0\ 3 \\ 1\ 0\ 3\ 7\ 6 \\ +\ 2\ 0\ 5\ 0\ 1 \\ \hline \end{array}$ Exposed pupils to quick addition strategies, such as, pairing of ten, bridging, estimation, etc. Pupils practice mental addition by using the strategy as an instant recall. Pupils create stories from given addition number sentences. Place to pupils problems in all forms, i.e. horizontal, simple sentences, tables and pictures.	(i) Add any two to four numbers to 100 (100) (ii) Solve addition problems.	Allow pupils to perform estimation either before or after addition. Estimating answers before adding builds confidence among pupils, while estimating after adding provides a check on operation performed. An example of a quick addition strategy, i.e. pairing of ten, is as follows (refer to the addition example in the Suggested Teaching and Learning Activities column). In the above given value, add 9 and 1 to make 10. Then 10 and 3 make 13. Apply this pairs of ten strategy where appropriate for the rest of the operation. The ability to solve addition problems is to be developed by first providing story construction exercises. Then, provide exercises to transform simple sentences to number sentences, for example: How many is three added to five? $\square + 3 = 5$ After pupils are familiar with story construction and representation activities, provide word problems exercises.	Number sentences, vertical form, without trading, finding, quick calculation, pairs of ten, double numbers, estimate, large.

California HSP Math ,2009 *California HSP Math* ,2009 California HSP Math ,2009 **Teachers Resources**
Book Math HSP,2002-06 **California HSP Math** ,2009 **HSP Math Problem Solving and Reading Strategies**
Workbook Grade 5 Hsp,2006-04-01 *California HSP Math* ,2009 *Arithmetic Counts!* Paul Shoecraft,2025-01-24 Dr
Shoecraft may be the only mathematician since the New Math in the 1960s to seriously analyze the lowly subject of
arithmetic and how to teach it His breakthrough came when he experimented with teaching what needs to be understood
instead of known memorized like teaching why addition problems until the algorithm they are using supposedly becomes
cemented in their brains By teaching the essence of arithmetic in sensible ways and appealing to children s love of games
songs and movement he s proven that virtually ALL children can learn arithmetic the foundation of algebra higher
mathematics science technology and more even music When children understand arithmetic they own it It s no lonver just
their teacher s math It s their math America s children are being held back in math because of how arithmetic is drug out in
elementary school Virtually every textbook based elementary school math program in use today is mind numbing in its
repetitiveness from grade to grade The reason for the redundancy is to slow down the teaching of arithmetic so it can be
memorized Research shows that the human brain is not designed to remember things learned by rote when no longer
practiced That s acknowledged in the use it or lose it aphorism that states the obvious that we remember what we use and
forget what we don t You know that to be true if you ve ever forgotten things you once knew as well as your own name things
like an old address or a license plate number Every child can understand base ten numeration when taught hands on with
arithmetic blocks Thereby every child can understand base ten arithmetic And every child can learn how to count out the
number facts like 5 7 12 17 8 9 6 X 7 42 and 56 7 8 and if they forget one never have to guess and risk ridicule and bad
grades if they guess wrong What matters in teaching arithmetic is not how much a child can remember but how much they
can figure out if when they forget **Harcourt Math** HSP,2002-04 **Math, Grade 3 Problem Solving/Reading**
