metaphors and the relationship between law and food in an interdisciplinary perspective to examine how food related topics can be used to describe or identify rules norms or prescriptions of all kinds The links between law and food are as old as the concept of law Many authors have been using such links in creative ways to express specific features of law This is because the language of food and cooking offers legal thinkers and teachers mouth watering metaphors comparing rules to recipes and their combination to culinary processes This collection focuses on this relationship between law and food and takes us far beyond their mere interaction to explore different ways of using these two apparently so diverse elements to describe different phenomena of the legal reality The authors use the link between food and law to describe different aspects of the legal landscape in different areas and jurisdictions Bringing together metaphors and indirect correlations between law and food the book explores different models of approaching legal issues and considering different legal challenges from a completely new perspective in line with the multidisciplinary approach that leads comparative legal studies today and to a certain extent revisiting and enriching it With contributions in English and French the book will be of interest to academics and researchers working in the areas of law and food law and language and comparative legal studies      **Recueil Des**

Flaesch-Mougin, Lucia Serena Rossi, 2013-04-03 Le présent ouvrage est le résultat d'une recherche conjointe entre les Universités de Bologne, Rennes et Bruxelles sur le thème de la dimension extérieure de l'espace de liberté, de sécurité et de justice de l'Union européenne ELSJ Cette recherche a été soutenue par la Commission européenne dans le cadre de l'Action Jean Monnet. Il associe des professeurs et chercheurs de renom qui conjuguent leurs compétences et situent leur analyse à l'intersection des politiques internes et des politiques externes de l'Union européenne. Les auteurs valuent de manière critique l'impact du traité de Lisbonne et de la pratique de l'Union concernant la dimension extérieure de l'ELSJ. Cette dimension dont l'importance ne cesse de croître oblige l'Union à concilier des impératifs parfois contradictoires entre les objectifs sécuritaires de l'ELSJ ou ceux de l'action extérieure ou encore avec les valeurs sur lesquelles elle est fondée. Les auteurs tentent de répondre à différentes questions induites par le nouveau système de représentation extérieure de l'Union dans le domaine de l'ELSJ. Quelles sont les retombées juridiques du nouveau système ? Quel est également son impact politique ? Ne risque-t-on pas une incursion croissante de la politique étrangère et de sécurité commune PESC dans les aspects sécuritaires de l'ELSJ ?

**A Vos Marques!** Alison Andrews, Brigitte Edelston, Sandy Tippet-Spirtou, 2006-01-23 A Vos Marques is an introductory course for students taking French as an option alongside their main degree course. It has been developed specifically for false beginner students who have a slight acquaintance with the language. The course comprises a student's book, teacher's book and 180 minutes of audio available for free download at <http://www.routledge.com/books/details/9780415157285> and through fifteen chapters follows the progress of an English speaking student studying in Paris whose achievements are designed to reflect those of the course user. Special features include activities involving pair and group work, an aid to self-assessment at the end of each chapter, hints on vocabulary learning, clear and accessible layout including integrated cartoons. The guidance offered by the teachers' book is of particular importance as lower level classes in universities are often taught by native speaking lecturers with little or no teaching training or experience.

**Droits de l'investisseur étranger et protection de l'environnement** Sabrina Robert-Cuendet, 2010-05-12 En droit international de l'investissement, le prisme de l'expropriation indirecte couvre une large catégorie de mesures telles que les réglementations qui n'impliquent pas de transfert de propriété mais aboutissent à une grave interférence avec un investissement. La définition des possessions indemnisables constitue une question extrêmement sensible située à la croisée des chemins entre la protection des droits des investisseurs et la préservation des prérogatives de l'État. Cet ouvrage explore, à travers l'exemple de la réglementation environnementale, le droit applicable à cette notion controversée. Il montre que l'approche traditionnelle reposant sur une dilution du concept d'expropriation n'est nullement appropriée et il contribue à clarifier l'étendue de la protection de l'investisseur sur le fondement du droit de la responsabilité internationale de l'État. In international investment law, the prism of indirect expropriation includes a broad range of measures such as regulatory measures which do not involve a transfer of property but result in a serious interference with an investment. The definition of compensable taking is a very sensitive issue.

situated at the crossroads between the protection of investors private rights and the safeguarding of the state s sovereign prerogatives This book explores through the example of environmental regulation the law applicable to this controversial topic It suggests that the traditional approach based on an extension of the concept of expropriation is inappropriate and it contributes to clarifying the scope of the international protection of the investor on the ground of the law of state responsibility
