**Handbook of Australian School Psychology** Monica Thielking,Mark D. Terjesen,2017-01-26 This handbook addresses the current state and practice of school psychology with a focus on standards unique to Australia including historical legal ethical practical and training factors It provides a compilation of the most current research based practices as well as guidelines for evidence based assessment and intervention for common conditions e g autism depression learning disabilities

and for delivering appropriate services to targeted student populations e.g. LGBT, gifted, medical issues. Chapters discuss the application of national and international school psychology practices within the Australian educational and psychological structure. The handbook also examines the lack of formal resources specific to Australia's culture and psychology systems with its unique mix of metropolitan cities and the vast geographic landscape that spans regional and remote areas. It offers numerous case studies and innovative school mental health programs as well as recommendations for professional development and advocacy that are unique to Australian school psychology. Topics featured in this Handbook include: Evidence-based assessment and intervention for dyscalculia and mathematical disabilities; Identification and management of adolescent risk-taking behaviors and addictions; Understanding and responding to crisis and trauma in the school setting; Prevention and intervention for bullying in schools; Class and school-wide approaches to addressing behavioral and academic needs; The role of school psychologists in the digital age; Practical advice for school psychologists facing complex ethical dilemmas. The Handbook of Australian School Psychology is a must-have resource for researchers, scientist-practitioners, and graduate students in child and school psychology, social work, and related fields that address mental health services for children and adolescents.

*Handbook of Treatment Planning for Children with Autism and Other Neurodevelopmental Disorders* Pamela McPherson, 2022-10-25. This handbook addresses treatment planning for children with autism spectrum disorder (ASD) and other neurodevelopmental disabilities (NDDs) using a medical home perspective. It examines the medical home model, which has been promoted as the standard of care by the American Academy of Pediatrics since 2002, emphasizing collaboration between patients, families, and providers to optimize care. The handbook addresses treatment planning, including the coordination of care provided by multiple specialists with a clear shared vision for maximizing each child's potential. Key areas of coverage include: Elements of treatment planning; history of the medical home model; documentation and strategies to facilitate communication; Goals of treatment from the perspectives of the family, person served, care providers, and fiscal and regulatory bodies; Role of each specialist, highlighting the most common conditions experienced by children with ASD and other NDDs; expectations for assessment and treatment; Detailed recommendations for making referrals and assisting the child and family in preparing for appointments. The Handbook of Treatment Planning for Children with Autism Spectrum Disorder and Other Neurodevelopmental Disabilities is a must-have resource for researchers, professors, and graduate students, as well as clinicians, therapists, and other professionals across such interrelated disciplines as clinical child, school, and developmental psychology, child and adolescent psychiatry, social work, rehabilitation medicine, therapy, pediatrics, and special education.
