## **Matriarchy Redux Off The Deep End:**

Matriarchy Redux: Off the Deep End Dov Ivry, 2014-12-04 The book begins like this This book is about the Matriarchal Revolution It is my fifth non fiction book on the subject Here I go off the deep end Not that very many have heard about this And even fewer are interested But all that is to be expected Revolutions are not made in an instant They appear after generations as the poet Heinrich Heine explains it I don t have to rush for readers Posthumously will do fine Heinrich Heine Take note of this you proud men of action You are nothing but the unconscious handymen for the men of thought who often in humblest quiet have prescribed with the utmost precision all your actions Maximilien Robespierre was nothing but the hand of Jean Jacques Rousseau the bloody hand that drew forth from the womb of time the body whose soul Rousseau had created No I am not comparing myself to Rousseau I am neither a philosopher nor an academic just a shit disturber I happen to be a Jew who learned of the Holocaust 50 years ago after buying a book by Primo Levi at a bookstore at the university where I hung out for a year or two and asked the question What in hell is going on here One gets nowhere by fighting the last war so I answered my question with a question after a considerable period What can be done about it My conclusion was that the wrong sex is running the planet and it has to be fixed This will take a revolution and that falls within the realm of the possible This is not to be accomplished through violence only counter violence as needed I always warn committed Christians believing Muslims and Orthodox Jews that they should not proceed into my books on this subject I have nothing against them personally but religion is the enemy and it is in the crosshairs Matriarchy is based on mother right The society is built to revolve around the needs of mothers Feminism for the past half century has been focused on the slaughter of the unborn Feminists also have nothing to seek here They would not gain admittance to the matriarchal movement I devoted my last book The Sovereign Sex to how to smash the caste system on this planet Women were assigned to an inferior caste 2 000 years ago and there is no playbook on how to break a caste I have no problem learning from early feminists as I did in this case On the other hand there are only two kinds of creatures who lust for human blood whom I deem worthy of attention The first are vampires and the second are people who work at blood donor clinics Vampires are imaginary but entertain those who enjoy escapist fiction and blood donor clinics save lives Simone de Beauvoir Even when her rights are legally recognized in the abstract long standing custom prevents their full expression in the mores Men and women can almost be said to make up two castes In this book I intend to concentrate on how the future Matriarchy can get control of language I ve talked about language generally elsewhere but here I am going to get down and dirty into how to fix the plumbing from where the shit hits the fan that is words that debase women Yeah it s possible Anything is achievable if you do the research obtain the facts and then suggest viable actions You have first to understand poetry which I do The word going to the laundry is cunt It took a modern day feminist to draw attention to the problem the kind I normally avoid But then even if anyone had wanted to discuss this issue in earlier days they would never have gotten past the censorship Germaine Greer I tried to take the malice

out of it I wanted women to be able to say it Ah it didn't work And now in a way I'm sort of perversely pleased cause it meant that it kept that power When you win you celebrate When you lose you rationalize I'm not being critical That is human nature But it remains for others to try again

**Matria Redux** Tegan Zimmerman, 2023-06-23 In *Matria Redux* Caribbean Women Novelize the Past author Tegan Zimmerman contends that there is a need for reading Caribbean women's texts relationally This comprehensive study argues that the writer's turn to maternal histories constitutes the definitive feature of this transcultural and transnational genre Through an array of Caribbean women's historical novels published roughly between 1980 and 2010 this book formulates the theory of matria an imagined maternal space and time as a postcolonial psychoanalytic feminist framework for reading fictions of maternal history written by and about Caribbean women Tracing the development of the historical novel in four periods of the Caribbean past slavery colonialism revolution and decolonization this study argues that a pan Caribbean generation of women writers of varying discursive racialized realities has depicted similar matria constructs and maternal motifs A politicized concept matria functions in the historical novel as a counternarrative to traditional historical and literary discourses Through close readings of the mother daughter plots in contemporary Caribbean women's historical fiction such as Andrea Levy's *The Long Song* Edwidge Danticat's *The Farming of Bones* Paule Marshall's *Praisesong for the Widow* and Marie Elena John's *Unburnable* *Matria Redux* considers the concept of matria an important vehicle for postcolonial psychoanalytic feminist literary resistance and political intervention Matria as a psychoanalytic postcolonial strategy therefore envisions by returning to history alternative feminist fictions futures and Caribbeans

*Jackson Rising Redux* Kali Akuno, Matt Meyer, 2023-04-11 Mississippi is the poorest state in the US with the highest percentage of Black people and a history of vicious racial terror Black resistance at a time of global health economic and climate crisis is the backdrop and context for the drama captured in this new and revised collection of essays Cooperation Jackson founded in 2014 in Mississippi's capital to develop an economically uplifting democratic solidarity economy is anchored by a network of worker owned self managed cooperative enterprises The organization developed in the context of the historic election of radical Mayor Chokwe Lumumba lifetime human rights attorney Subsequent to Lumumba's passing less than one year after assuming office the network developed projects both inside and outside of the formal political arena In 2020 Cooperation Jackson became the center for national and international coalition efforts bringing together progressive peoples from diverse trade union youth church and cultural movements This long anticipated anthology details the foundations behind those successful campaigns It unveils new and ongoing strategies and methods being pursued by the movement for grassroots centered Black community control and self determination inspiring partnership and emulation across the globe

**Matriarchy Redux** Dov Ivry, 2014-12-29 These are excerpts from the beginning I write books on the Matriarchal Revolution This is my sixth non fiction on that topic It is actually the companion to the fifth book *Matriarchy Redux* Off The Deep End My thesis is that the wrong sex is running the planet running it into the ground actually

and that has to be changed This will take a revolution It won't happen today or tomorrow or for a very long time but if you don't start talking about it it won't happen at all Of the two sexes woman is the only one with a track record of success having brought us from the caves to civilization singlehandedly without violence They'll display the same level of managerial competence in the future New types of societies require new types of people It's a chicken and egg situation but I think it is clear that the egg comes first the stimulus This has happened time and again throughout history Lewis Mumford The human personality may produce an effect out of all proportion to its physical powers just as a tiny seed crystal dropped into a saturate solution may cause the whole mass to assume a similar crystalline form This casts a further light on the means by which a new type of personality Confucian Buddhist Christian Mohammedan Marxist gathers to itself sufficient powers to overcome the normal resistances to wholesale change that every society exhibits At moments of crises where the roads to disintegration or to development separate as on a watershed a single decisive personality or a small group of informed and purposeful men may by a slight push determine the direction and movement of an otherwise uncontrollable mass of conflicting social forces At such moments not a single institution or group but a whole society will be involved in a change far beyond its ordinary capacities for adaptation The point to observe is that what science calls nature or the external world is partly a projection of the human personality Instead of beginning with the nature and eliminating as far as possible the operations of the personality we must begin with the human personality Since the type of people who will make the Matriarchal Revolution do not yet exist I am really writing for no one in particular among the living But that too is par for the course in this kind of enterprise Thomas Carlyle Every new opinion at its starting is precisely a minority of one In one man's head alone there it dwells as yet In promoting revolution you are very much like the guy who sold Jack seeds for a magic beanstalk in return for his cow except that you are not asking anyone for his cow and you can't prove that the seeds will grow the magic beanstalk Leaving aside national uprisings and rebellions of that sort in most cases those promoting fundamental change in society out of the blue are offering rewards to the individual such as a chance to get rich quick or an extended life of ease in another galaxy Upheavals happen but the big picture doesn't change humanity continues its slide to oblivion The only honest offer I can make is the by now prosaic blood sweat and tears You have to appeal to rationality but the issues are anchored in the irrational and language doesn't go there Essentially all you can do with your seeds is pollinate even though you will never see what takes root But as we Canadians learn from a young age you can't score unless you shoot Committed Christians believing Muslims and Orthodox Jews should not proceed into my books on this subject Religion is the enemy and it is in the crosshairs Matriarchy is based on mother right The society is built to revolve around the needs of mothers Feminism for the past half century has been focused on the slaughter of the unborn Feminists also have nothing to seek here They would not gain admittance to the matriarchal movement The Necropolitical Production and Management of Forced Migration Ariadna Estevez, 2021-11-04 Using examples from the United States Mexico border Central America and South

America this book argues that forced migration is not a spontaneous phenomenon but rather a product of necropolitical strategies designed to depopulate resource rich countries or regions Estevez merges necropolitical analysis with postcolonial migration and offers a new framework to study the set of policies laws institutions and political discourses producing a profit in a legal context in which habitat devastation is legal but mobility is a crime Violence deprivation of food or water environmental contamination and rights exclusion are some of the tactics used in extractivist capitalism Private and state actors alike use necropower both its first and third world versions to make people living and dead a commodity

Androgynous Democracy Aaron Shaheen, 2010-07-27 Androgynous Democracy examines how the notions of gender equality propounded by transcendentalists and other nineteenth century writers were further developed and complicated by the rise of literary modernism Aaron Shaheen specifically investigates the ways in which intellectual discussions of androgyny once detached from earlier gonadal based models were used by various American authors to formulate their own paradigms of democratic national cohesion Indeed Henry James Frank Norris Charlotte Perkins Gilman John Crowe Ransom Grace Lumpkin W E B Du Bois and Marita Bonner all expressed a deep fascination with androgyny an interest that bore directly on their thoughts about some of the most prominent issues America confronted as it moved into the first decades of the twentieth century Shaheen not only considers the work of each of these seven writers individually but he also reveals the interconnectedness of their ideas He shows that Henry James used the concept of androgyny to make sense of the discord between the North and the South in the years immediately following the Civil War while Norris and Gilman used it to formulate a new model of citizenship in the wake of America's industrial ascendancy The author next explores the uses Ransom and Lumpkin made of androgyny in assessing the threat of radicalism once the Great Depression had weakened the country's faith in both capitalism and religious fundamentalism Finally he looks at how androgyny was instrumental in the discussions of racial uplift and urban migration generated by Du Bois and Bonner Thoroughly documented this engrossing volume will be a valuable resource in the fields of American literary criticism feminism and gender theory queer theory and politics and nationalism

**Grassroots Responses to Extractivism** Samuel Leguizamon Grant, Felix Mantz, Mariko Frame, 2025-01-23 This volume makes visible the many innovative resistances and solutions emanating from the Global South in response to the injustices of the current global ecological crises Rooted in contemporary ecological imperialism these crises are subjecting marginalized communities in the Global South to the worst socio ecological repercussions worldwide whilst mainstream environmental policies and solutions reproduce market based approaches premised on a hegemonic Western world view The book details a wide variety of case studies from across Asia Africa and the Americas such as deforestation activism in Cambodia and grassroots community organisation against large scale land transactions in Liberia among many others The contributors composed of a mix of academics and activists propose bottom up solutions to the current ecological and climate crises This work highlights how anti capitalist anti colonial and anti anthropocentric

alternatives and movements are realistic holistic and appropriate in the face of global ecological crises      *Vanity Fair*
