experience of the labor camps and changes brought about by China's dramatic re-opening to the world since Deng Xiaoping came to power in 1978. No other book so poignantly reveals the travails of the common person and village life under China's tempestuous Communist government which He Liyi ironically refers to as Mr China. Yet he describes his saga of poverty and hardship with humor and a surprising lack of bitterness. And rarely has there been such an intimate, frank view of how a Chinese man thinks and feels about personal relationships revealed in dialogue and letters to his two wives. He Liyi's autobiography stands as perhaps the most readable and authentic account available in English of life in rural China. He Liyi's previous book is *The Spring of Butterflies* (London and New York 1985) a translation of Chinese folk tales.
