*Standardising English* Linda Pillière, Wilfrid Andrieu, Valérie Kerfelec, Diana Lewis, 2018-03-15 This path breaking study of the standardisation of English goes well beyond the traditional prescriptivism versus descriptivism debate It argues that the way norms are established and enforced is the result of a complex network of social factors and cannot be explained simply by appeals to power and hegemony It brings together insights from leading researchers to re centre the discussion on linguistic communities and language users It examines the philosophy underlying the urge to standardise language and takes a closer look at both well known and lesser known historical dictionaries grammars and usage guides demonstrating that they cannot be simply labelled as prescriptivist Drawing on rich empirical data and case studies it shows how the norm continues to function in society influencing and affecting language users even today
