Blackjack, also known as Twenty-one, is one of the world's most popular casino games. In Blackjack, the dealer deals cards to seven players. These rules vary from casino to casino, but all versions of the game are based on the same principles. The goal is to get a 21 or closer to that value than the dealer.

Each player has two cards. If the player totals the dealer they receive another card. If they total 21 or more, they lose. The dealer then deals the cards to the next player. The game continues until all players have completed their turn. The dealer then deals the cards to the next player.

Each turn and results the dealer's hand. All the cards are allocated according to the players and dealer's results. The game is known for its complex strategy, but players will discover the fun of the game as well as help new players understand the strategy.
