É uma vez que a nossa proposta se dirige muito em especial à investigação do fenómeno educativo quisemos partir também de uma visão complexa desse mesmo fenómeno. Enfim, apostamos na construção de um texto que ajude os seus leitores a empenharem-se num processo investigativo de natureza qualitativa através do desenho de um plano de investigação adequado ao problema formulado em termos de estratégia geral de técnicas de recolha e de análise de dados e que patenteie preocupação pela validade da mesma e pelos aspetos éticos em jogo.

Active Ageing and Demographic Change Siniša Zrinščak, Susan Lawrence,2017-10-02 Although demographic change has been a widely discussed topic for decades its scope, social impact and related policy responses leave us with many unresolved social issues. Demographic change is a reality for all European societies but the ways in which it is taking place differ from country to country. Active ageing both as a concept and policy response to the demographic ageing of populations has been widely debated, researched and utilised informing both policy and practice and providing a common narrative framework to ageing. However there continues to be a lack of clarity around the precise meaning of active ageing. This book explores the way in which social work is critically engaging with the theme of active ageing in light of or maybe as a reaction to the policy responses witnessed within the context of large scale and rapid demographic change. This book was originally published as a special issue of the European Journal of Social Work.
